Warring Souls Youth Media And Martyrdom In Post Revolution Iran:

Warring Souls Roxanne Varzi, 2006-05-31 An ethnography of secular youth culture in Tehran and its resistance to post Revolutionary Islamicist politics

The Making of Martyrdom in Modern Twelver Shi'ism Adel Hashemi, 2022-02-24 In Twelver Shi'a Islam the wait for the return of the Twelfth Imam Muhammad ibn al Hasan al Mahdi at the end of time overshadowed the value of actively seeking martyrdom However what is the place of martyrdom in Twelver Shi'ism today This book shows that the Islamic revolution in Iran resulted in the marriage of Shi'i messianism and extreme political activism changing the mindset of the Shi'a worldwide Suddenly each drop of martyrs blood brought the return of al Mahdi one step closer and the Islamic Republic of Iran supposedly became the prelude to the foretold world revolution of al Mahdi Adel Hashemi traces the unexplored area of Shi'i discourse on martyrdom from the 1979 revolution when the Islamic Republic's leaders cultivated the culture of martyrdom to topple the Shah's regime to the dramatic shift in the understanding of martyrdom today Also included are the reaction to the Syrian crisis the region's war with ISIS and other Salafi groups and the renewed commitment to the defense of shrines This book shows the striking shifts in the meaning of martyrdom in Shi'ism revealing the real relevance of the concept to the present day Muslim world

Drugs, Deviancy and Democracy in Iran Janne Bjerre Christensen, 2011-09-30 In the aftermath of the Iranian Revolution the government of the Islamic Republic initiated a stringent anti drug campaign that included fining addicts imprisonment physical punishment and even the death penalty Despite these measures drug use was and is still commonplace Based on her most recent fieldwork Janne Bjerre Christensen explores the mounting problems of drug use in Iran how treatment became legalized in 1998 how local NGOs offer methadone treatment in Tehran and face continuous political challenges in doing so and how drug use is critically discussed in Iranian media and cinema

Drugs Deviancy and Democracy in Iran is thus a unique account of Iran's recent social and political history drawing important conclusions about the complexity of state power and the growing impact of civil society vital for all those interested in Iran's history politics and society

Power and Change in Iran Daniel Brumberg, Farideh Farhi, 2016-04-04 By a wide margin this book is the most sophisticated treatment of the internal dynamics and paradoxes of Iranian politics that I know of Nader Hashemi Director of the Center for Middle East Studies This volume provides an unparalleled and timely look at political social economic and ideological dynamics in contemporary Iran Through chapters on social welfare and privatization university education the role and authority of the Supreme Leader the rule of law the evolving electoral system and the intense debate over human rights within and outside the regime the contributors offer a comprehensive overview of Iranian politics Their case studies reveal a society whose multiple vectors of contestation negotiation and competition are creating possibilities for transformation that are yet to be realized but whose outcome will affect the Islamic Republic the region and relations with the United States Offers a realistic nuanced and perceptive analysis of Iran's complex and evolving political system This book would be appropriate as required or recommended reading for any

courses dealing with the Islamic Republic of Iran or with the politics of the Middle East both at the undergraduate and graduate levels Mohsen Milani author of *The Making of Iran's Islamic Revolution Discourses of Ideology and Identity* Chris Featherman, 2015-03-24 In this monograph Chris Featherman adopts a discourse analytical approach to explore the ways in which social movement ideologies and identities are discursively constructed in new and old media In the context of his argument Featherman also considers current debates surrounding the role that technologies play in democracy building and global activist networks He engages these critical issues through a case study of the 2009 Iranian presidential election protests looking at both US legacy media coverage of the protests as well as activists use of social media Through qualitative analysis of a corpus of activists Twitter tweets and Flickr uploads Featherman argues that activists social media discourses and protesters symbolic and tactical borrowing of global English contribute to micronarratives of globalization while also calling into question master narratives about Iran commonly found in mainstream Western media accounts This volume makes a timely contribution to discussions regarding the relationship between cyber rhetoric and democracy and provides new directions for researchers engaging with the influence of new media on globalized vernaculars of English

Liberating Histories Claire Norton, Mark Donnelly, 2018-07-11 *Liberating Histories* makes an original scholarly contribution to contemporary debates surrounding the cultural and political relevance of historical practices Arguing against the idea that specifically historical readings of the past are necessary or are compelled by the force of past events themselves this book instead focuses on other forms of past talk and how they function in politically empowering ways against social injustices Challenging the authority and constraints of academic history over the past this book explores various forms of past talk including art films activism memory nostalgia and archives Across seven clear chapters Claire Norton and Mark Donnelly show how activists and campaigners have used forms of past talk to unsettle common sense thinking about political and social problems how journalists artists curators filmmakers and performers have referenced the past in their practices of advocacy and how grassroots archivists help to circulate materials that challenge the power of authorised institutional archives to determine what gets to count as a demonstrable feature of the past and whose voices are part of the historical record Written in a lucid accessible manner and combining insightful critical analysis and philosophical argument with clear consideration of how different forms of past talk influence the narration of pasts in a variety of socio political contexts *Liberating Histories* is essential reading for students and scholars with an interest in historiography and the ethical and political dimensions of the historical discipline

Sexuality in Muslim Contexts Anissa Helie, Homa Hoodfar, 2012-10-11 This groundbreaking book explores resistance against the harsh policing of sexuality in some Muslim societies Many Muslim majority countries still use religious discourse to enforce stigmatization and repression of those especially women who do not conform to sexual norms promoted either by the state or by non state actors In this context Islam is often stigmatized in Western discourse for being intrinsically restrictive with respect to women's rights and sexuality The authors show that

conservative Muslim discourse does not necessarily match practices of believers or of citizens and that women's empowerment is facilitated where indigenous and culturally appropriate strategies are developed Using case studies from Pakistan Iran Indonesia China Bangladesh Israel and India they argue persuasively that Muslim religious traditions do not necessarily lead to conservative agendas but can promote emancipatory standpoints An intervention to the construction of Muslim women as uniformly subordinate this collection spearheads an unprecedented wake of organizing around sexualities in Muslim communities *Homogenization, Gender and Everyday Life in Pre- and Trans-modern Iran* Leila

Papoli-Yazdi, Maryam Dezhkamhooy, 2021 *Homogenization Gender and Everyday Life in Pre and Trans modern Iran* An Archaeological Reading is actually an effort to investigate the interaction of power structure and gender in the context of everyday life in Iran in the 19th and early 20th centuries The book pursues two main goals situating gender in Iranian archaeology and calling for more consideration to daily life in archaeological gender researches Drawing on a wide range of material culture textual evidence statistics and oral accounts all chapters render the destruction of the everyday life of ordinary people Events like parties and ceremonies marriage and kinship sexual practices dress codes and even eating and drinking were gently regulated by the surveillance state Accordingly the term homogenization in the book's title refers to the policies of the Pahlavi government the first Iranian modern centralized state In this way the book seeks to understand the process of gender and sexual transformation of Iranian society the process which resulted in the production of deviants and negative gender and sexual lives Being the first archaeological research on gender by native archaeologists the authors state the fact that this book investigates the politics of gender while many other aspects of gender remain still uninvestigated Leila Papoli Yazdi Researcher Department of Historical Studies at the University of Gothenburg Sweden **A History of Iran**
