Washington's Mount Rainier National Park A Centennial Celebration:

Washington's Mount Rainier National Park Tim McNulty, 1998 Home to more than 120 alpine plant species three of which are found nowhere else in the world Mount Rainier remains a refuge for a diversity of flora and fauna It is also a magnet for the hundreds of thousands of people who live within sight of its snowy slopes and for millions of visitors who arrive from around the world each year O'Hara and McNulty explore the conflict this presents as park managers attempt to balance protection of the mountain's fragile ecosystems with the desires of the many who wish to seek solitude in its vast forests or challenge themselves on its daunting glaciers

Exceptional Mountains Oliver Alan Weltzien, 2016-08 Over the past 150 years people have flocked to the Pacific Northwest in increasing numbers in part due to the region's beauty and one of its most exceptional features volcanoes This segment of the Pacific Ring of Fire has shaped not only the physical landscape of the region but also the psychological landscape and with it the narratives we compose about ourselves *Exceptional Mountains* is a cultural history of the Northwest volcanoes and the environmental impact of outdoor recreation in this region It probes the relationship between these volcanoes and regional identity particularly in the era of mass mountaineering and population growth in the Northwest O'Alan Weltzien demonstrates how mountaineering is but one conspicuous example of the outdoor recreation industry's unrestricted and problematic growth He explores the implications of our assumptions that there are no limits to our outdoor recreation habits and that access to the highest mountains should include amenities for affluent consumers Each chapter probes the mountain-based regional ethos and the concomitant sense of privilege and entitlement from different vantages to illuminate the consumerist mind set as a reductive and deeply problematic version of experience and identity in and around some of the nation's most striking mountains
