Cognitive Sophistication and the Development of Judgment and Decision-Making Maggie E. Toplak,2021-10-27 Cognitive

Sophistication and the Development of Judgment and Decision Making reviews the existing literature on the development of reasoning judgment and decision making with a primary focus on measures from the heuristics and biases tradition. The book presents a model based on cognitive sophistication to examine the development of judgment and decision making including age related differences in developmental samples associations with intellectual abilities and executive functions and associations with dispositional tendencies that support judgment and decision making. Additional sections cover the empirical findings of a longitudinal study conducted over seven years that tie together the discussed aspects related to cognitive sophistication. This book will provide a much needed description of the theoretical and conceptual issues a review of empirical findings and an integrative summary of the implications for developmental models of reasoning judgment and decision making. Explores whether individual heuristics and biases are associated. Reviews individual differences in cognitive abilities and thinking dispositions. Examines reasoning from the lens of cognitive sophistication. Discusses the implications for models including dual process models. Tests and elaborates using empirical findings from a longitudinal study.

Handbook of Child and Adolescent Anxiety Disorders Dean McKay, Eric A. Storch, 2011-03-23 Is it school refusal or separation anxiety disorder? Can preschoolers have panic attacks? Does food neophobia really exist? For readers seeking ways to improve assessment case conceptualization or treatment plans as well as a more general understanding of anxiety disorders among children, the Handbook of Child and Adolescent Anxiety Disorders addresses these and many other complex issues. A straightforward companion to the diagnostic manuals, this volume crosses theoretical boundaries to describe in depth the wide range of children's anxiety disorders and to explain the developmental nuances that separate them from their adult analogues. Coverage includes: Diagnostic and etiological models of children's anxiety disorders; i.e. genetic, cognitive, behavioral, taxonomic, neuropsychological, dimensional. Differential diagnosis guidelines for generalized anxiety disorder, GAD, phobic conditions, obsessive compulsive disorder, OCD, and posttraumatic stress disorder, PTSD in youth. Ancillary factors in child and adolescent anxiety, e.g. personality, temperament, parenting issues and comorbid conditions. Psychological, pharmacological and combined treatments for childhood anxiety disorders. Special populations and emerging areas of interest including anxiety disorders in the contexts of chronic health problems and developmental disabilities. The Handbook of Child and Adolescent Anxiety Disorders is a must have reference for researchers, clinicians and graduate students in psychology, psychiatry, social work and counseling as well as allied professionals in hospitals, community mental health centers, schools and private practice.
