Watch It The Risks And Promises Of Information Technologies For Education:

Watch It Nicholas Burbules, 2018-03-05 Watch IT is an examination of several critical issues in the potential of new information technology IT for education IT already central to many aspects of our lives is rapidly becoming an integral part of teaching and learning This book takes a close look at the positive and negative consequences of new technologies in the classroom In a series of interrelated essays the authors explore such issues as access credibility new approaches to reading and writing the glut of information privacy censorship commercialization and globalization **Edutopias**, 2006-01-01 Education has always been part of the search for the ideal society and therefore an important part of the utopian tradition in Western culture politics and literature Education has often served to define the ideal society or to provide the principal means of creating it This unique collection of essays by well known scholars from around the world examines the role of edutopias in the utopian tradition examining its sources and sites as a means for understanding the aims and purposes of education for realizing its societal value and for criticizing its present economic technological and organizational modes These essays will stimulate new thinking in ways that impinge on both theoretical and practical questions as well as offering the reader a series of reminders of the ethical and political dimensions of education and its place in helping to build good and just societies The collection is aimed at an audience of teachers and graduate students although it will also be of interest to administrators policy makers and the general public interested in utopian thinking and its relation to education

Globalization and Education Nicholas C. Burbules, Carlos Alberto Torres, 2013-12-16 In Globalization and Education Critical Perspectives an outstanding group of international contributors explore the increasingly important dimensions of globalization as it affects educational policy and practice in nation states around the world Changing conditions in a globalized world including travel international media transnational capitalism and the role of global organizations and institutions all have profound implications for the formation and implementation of education policy Addressing such issues as feminism multiculturalism and new technology this collection of original essays will broaden the context in which educational policy decisions are viewed Contributors Michael W Apple Jill Blackmore Nicholas C Burbules Juan Ram n Capella Luiza Cortes o Greg Dimitriadis Patrick Fitzsimmons Douglas Kellner Bob Lingard Allan Luke Carmen Luke James Marshall Cameron McCarthy Raymond A Morrow Michael Peters Thomas S Popkewitz Fazal Rizvi Stephen R Stoer and Carlos Alberto Torres Bringing Memory Forward Teresa Strong-Wilson, 2008 Bringing Memory Forward looks at the application of the method of currere to storied formation Research tells us that white teachers are among the most recalcitrant of learners when it comes to challenging their own memories and experiences of privilege and race This book examines how white teachers can recognize and critique their constructions of difference and asks what it is that white teachers are so attached to that makes such critique difficult The book goes on to discuss the processes that might be set in motion to bring these attachments into question in such a way that the learner namely the teacher does not feel alienated

and paralyzed by her thoughtlessness but instead is moved to think and act Through elaborating a method called bringing memory forward that emerged from self study methodologies and a teacher action research project Teresa Strong Wilson draws attention to the significance of stories and critical engagement with stories in social justice education with teachers
