Way Out Obamacare Sally Pipes:

The Way Out of Obamacare Sally C. Pipes, 2015-12-15 President Barack Obama has declared that his signature health reform law the Patient Protection and Affordable Care Act is here to stay But his days in the White House are numbered and the law has failed insurance premiums and deductibles have skyrocketed patients are losing access to doctors and economic growth has been crushed In this Broadside Sally C Pipes provides an actionable blueprint for health care reform this campaign season which the next president can implement on Day One This book provides a replacement plan for Obamacare one that will provide affordable accessible quality health care for all Americans **The Growth Deficit** James

Piereson, 2022-11-01 During the 1980s and 1990s European economies went through a period of slowing economic growth and high unemployment what some economists described as secular decline On the other side of the Atlantic the United States enjoyed a robust recovery during those years by reducing taxes eliminating regulations on business and tightening monetary policy Now after two decades of subpar growth the question is whether or not the American economy has entered into its own era of secular decline This Broadside examines this troubling development recognizing that there are no easy solutions to the problem Lacking workable solutions Americans will have to adjust to a future of slow economic growth with all that implies for inter generational progress American strength abroad and political conflict at home **The Truth About**

Obamacare Sally C. Pipes, 2010-07-13 In her new book *The Truth About Obamacare* Sally C Pipes president of the Pacific Research Institute and an acknowledged expert on health care reform reveals what Democrats in Congress and President Obama don't want you to know Obamacare is even worse than most critics suspect Debunking the myths that the current administration has touted Pipes shows exactly what the new health care law will mean for you your family your doctor and your wallet She also reveals how contrary to its promises Obamacare will make health care more expensive limit your options lead to deteriorating medical care and weaken America's already frail economy *Getting America Back to Work* Andrew F.

Puzder, 2020-04-21 Over the last two months the COVID 19 pandemic has thrown a robust American economy into disarray completely shutting down major business sectors and putting millions of people out of work overnight With so much at stake and with all options seemingly on the table it is crucial that we commit ourselves to the long term goal of restoring the sorts of free market policies that led to the Trump Economic Boom prior to the China Virus crisis Although massive government interventions that Barack Obama pursued following the Great Recession might presently appear beneficial or even essential a return to Obama's new normal of stagnant growth would lead to disastrous and persisting economic damage We must instead return as soon as is safely possible to the Trump model of economic prosperity that produced the strongest labor market in modern history **Why We Must Defend the Electoral College** Trent England, 2020-05-05 Is the Electoral

College racist and a scam as Rep Alexandria Ocasio Cortez claims Or was Alexander Hamilton right when he declared that if it be not perfect it is at least excellent In this Broadside Trent England explains why we have the Electoral College how it

shapes American politics and why preserving it is necessary to maintain our republican form of government With an organized campaign trying to hijack the constitution s state by state system in favor of a direct election now is the time for Americans to come to the defense of the Electoral College *The Fracturing of the E.U.* Bruce S. Thornton,2017-12-05 The long simmering crises challenging the European Union have worsened with the 2008 financial crisis the influx of Middle East refugees in 2015 several bloody terrorist attacks and England s departure from the E U in 2016 Yet these are all the wages of persistent flaws in the idea of the Union itself Excessive regulations welfare and taxes impede economic growth Centralization of power in Brussels has created a democracy deficit and lessened autonomy and freedom Populations are shrinking and unvetted and unassimilated migrants have increased crime and terrorist attacks All these problems reflect the lack of any unifying set of beliefs and principles that could unite 27 diverse cultures and peoples Europe is fractured and adrift its peoples unsure for what they should fight or die for *The Next Pandemic* Betsy McCaughey,2020-05-19 America is suffering from two public health crises One is caused by a virus The other a brutal economic shutdown is something we have brought on ourselves Both the virus and the shutdown are deadly But many more Americans will likely die from getting laid off than from the virus The shutdown wasn t caused by the virus It was a frantic response to America s unpreparedness For more than two decades a dozen official reports sounded the alarm The career pols and federal bureaucrats did nothing Message to Washington DC No more commissions and televised hearings It s time to act In this incendiary Encounter Broadside Betsy McCaughey shows how to battle the next pandemic without an economic shutdown including technologies to make workplaces healthier protections for hospital workers and severing dependence on China for medical supplies Despite the suffering there s reason for optimism America will be ready for the next pandemic **The False Promise of Single-Payer Health Care** Sally C. Pipes,2018-03-06 A government takeover of the US health care system has never looked more plausible Support for the idea is at an all time high Two thirds of Democratic voters favor single payer health care even one in four Republicans is on board In this Broadside Sally C Pipes makes the case against single payer by offering evidence of its devastating effects on patients in Canada the United Kingdom and even the United States Long wait times substandard care lack of access to innovative treatments huge public outlays and spiraling costs are endemic to single payer Those are hardly outcomes we should consider foisting upon the American health care system **Trump vs. the Media** Mollie Ziegler Hemingway,2017-04-25 How bad is the problem of media bias The answer can be summed up in a few words President Donald J Trump Whether you love him or hate him there s no question that Trump gained a huge amount of support for his willingness to criticize the media in harsh and unsparing terms The media seems baffled by the fact that it s lost the trust of the American people It has responded by being extraordinarily defensive and doubling down on histrionic attacks However the American system has always depended on a strong and trusted media to hold those in power accountable Journalist Mollie Hemingway looks at the impressive list of media failure that led us to this unique moment and asks Is it possible for

the media to recover its credibility before it's too late **The Cure for Obamacare** Sally C. Pipes, 2013-07-02 This Broadside will look at the changes that can be made to halt the full implementation of the law over the next few years including repealing parts of the act that are unpopular with members of both parties These parts are the medical device tax IPAB the new 3.8 percent tax on unearned income to name a few Also covered will be potential reforms to Medicare and Medicaid two major entitlement programs that if not reformed to ensure sustainability for those who really need these programs will be bankrupt by 2024 There are a number of important lawsuits that will come before the courts this year on issues such as the exchanges employer and individual mandates and the contraception mandate These will be highlighted and their potential impact on the law will be discussed Finally there is the issue of defunding the Medicaid expansion and the federal tax subsidies which unless changed will add tremendously to the cost of health care in this country With the current fiscal crisis these programs must be scaled back Like welfare reform the battle to bring about meaningful health care reform is a long term fight We must not give up The election of 2016 will be very important for the future direction of health care A reform plan will be offered If Obamacare is not repealed and replaced the U S will be on the road to a single payer Medicare for All system such as exists in Canada We too will face long waiting lists rationed care and a lack of access to the latest technology and treatments Examples will be given America will be on the Road to Serfdom and there will be no off ramp
