Ways Think Possibilities Philosophy Education Ebook:

EBOOK: FOR EDUCATION Wilfred Carr, 1995-02-16 A recent review of his work describes Wilfred Carr as one of the most brilliant philosophers now working in the rich British tradition of educational philosophy His work is rigorous refreshing and original and examines a number of fundamental issues with clarity and penetration In *For Education* Wilfred Carr provides a comprehensive justification for reconstructing educational theory and research as a form of critical inquiry In doing this he confronts a number of important philosophical questions What is educational theory What is an educational practice How are theory and practice related What is the role of values in educational research Is a genuinely educational science possible By appealing to developments in critical theory the philosophy of science and the philosophy of the social sciences Wilfred Carr provides answers to these questions which vindicate the idea of an educational science that is not on or about education but for education a science genuinely committed to promoting educational values and ideals **EBOOK:**

Learning Spaces: Creating Opportunities for Knowledge Creation in Academic Life Maggi Savin-Baden, 2007-11-16 This is a timely and important book which seeks to reclaim universities as places of learning It is jargon free and forcefully argued It should be on every principal and vice chancellor's list of essential reading Jon Nixon Professor of Educational Studies University of Sheffield The ability to have or to find space in academic life seems to be increasingly difficult since we seem to be consumed by teaching and bidding overwhelmed by emails and underwhelmed by long arduous meetings This book explores the concept of learning spaces the idea that there are diverse forms of spaces within the life and life world of the academic where opportunities to reflect and critique their own unique learning position occur Learning Spaces sets out to challenge the notion that academic thinking can take place in cramped busy working spaces and argues instead for a need to recognise and promote new opportunities for learning spaces to emerge in academic life The book examines the ideas that Learning spaces are increasingly absent in academic life The creation and re creation of learning spaces is vital for the survival of the academic community The absence of learning spaces is resulting in increasing dissolution and fragmentation of academic identities Learning spaces need to be valued and possibly redefined in order to regain and maintain the intellectual health of academe In offering possibilities for creative learning spaces this innovative book provides key reading for those interested in the future of universities including educational developers researchers managers and policy makers

EBOOK: Developing Thinking; Developing Learning Debra McGregor, 2007-03-16 This highly informative book provides a comprehensive guide to the teaching of thinking skills in primary and secondary education Learning and Teaching Update It is now recognised that thinking skills such as problem solving analysis synthesis creativity and evaluation can be nurtured and developed and education professionals can play a significant role in shaping the way that children learn and think As a result schools are being encouraged to make greater use of thinking skills in lessons and the general emphasis on cognition has developed considerably This book offers a comprehensive introduction to thinking skills in education and

provides detailed guidance on how teachers can support cognitive development in their classrooms Developing Thinking Developing Learning discusses how thinking programmes learning activities and teachers pedagogy in the classroom can fundamentally affect the nature of pupils thinking and considers the effects of the learning environment created by peers and teachers It compares the nature design and outcomes of established thinking programmes used in schools and also offers practical advice for teachers wishing to develop different kinds of thinking capabilities This is an indispensable guide to thinking skills in schools today and is key reading for education studies students teachers and trainee teachers and educational psychologists *EBOOK: EFFECTIVE EARLY YEARS EDUCATION* Anne Edwards, Peter Knight, 1994-12-16 In this concise and accessible guide the authors are sympathetic to the particular demands of teaching three to eight year olds and offer practical solutions to the complex issues that are currently faced by early years educators In recognizing the demands on practitioners they provide new and challenging frameworks for an understanding of the practice of teaching young children and draw upon international research to offer a sound model of early years subject structured teaching which has the quality of children s learning at its centre Their aim is to support teacher expertise through stimulating teachers thinking about children s development motivation ways of learning and the subjects they teach These topics are clearly set in the complex institutional settings in which practitioners work and ways of taking and evaluating action are offered

EBOOK: Personalisation for Social Workers: Opportunities and Challenges for Frontline Practice Jenni Burton, Thomas Toscano, Maryam Zonouzi, 2012-06-16 This helpful text represents another brick in the wall for social workers and social work students seeking to make sense of personalisation person centred support personal budgets and the changing role of social work in the future This book will help all concerned with social work make better sense of what this should look like if it is to support social justice inclusion and equality Professor Peter Beresford OBE Brunel University and Chair Shaping Our Lives This informative text bases the Personalisation discussion on real life examples and perspectives providing a balanced account of the opportunities and obstacles faced by all stakeholders engaged in this agenda The final chapter on managing change provides the reader with an opportunity to step forward in time and consider how Personalisation might be located within the historical timeline of delivering social care and whether concepts of co production empowerment and citizenship can in fact become central to this agenda A book to get you thinking and doing Ali Gardner Senior Lecturer Manchester Metropolitan University UK The authors have written a timely and highly topical book on the impact that Personalisation has and will have upon the world of Social Work They do so in a very accessible way through highlighting the benefits of the model to all concerned but crucially they explore some of the many concerns In particular they address the anxieties expressed by qualified social workers upon their future role I shall certainly draw upon the text for my own teaching and learning and will encourage students and practitioners to do the same Paul Hollingdale Course Leader University of Huddersfield UK Personalisation remains a huge talking point in the world of social care This timely book addresses the

tensions opportunities and challenges faced by social workers attempting to implement personal funding and support Written by three academics with extensive first hand experience of supporting people in personalised ways the book highlights the ethical dilemmas and complexities of frontline practice and is grounded in a pragmatic and creative approach to personalisation The authors offer an honest representation of positive aspects of personalisation and examine areas that cause concern The book also Contains scenarios based on realistic examples of supporting service users and carers Recognises the political social cultural and individual factors that interplay in personalisation Provides a balance between an academic understanding of personalisation and application in practice Presents a vision for what the future would look like with fully implemented personalisation in adult social care *EBOOK: Higher Education Pedagogies* Melanie

Walker,2005-11-16 What does higher education learning and teaching enable students to do and to become Which human capabilities are valued in higher education and how do we identify them How might the human capability approach lead to improved student learning as well as to accomplished and ethical university teaching This book sets out to generate new ways of reflecting ethically about the purposes and values of contemporary higher education in relation to agency learning public values and democratic life and the pedagogies which support these It offers an alternative to human capital theory and emphasises the intrinsic as well as the economic value of higher learning Based upon the human capability approach developed by economist Amartya Sen and philosopher Martha Nussbaum the book shows the importance of justice as a value in higher education It places freedom human flourishing and students educational development at its centre Furthermore it takes up the value Sen attributes to education in the capability approach and demonstrates its relevance for higher education Higher Education Pedagogies offers illustrative narratives of capability learning and pedagogy drawing on student and lecturer voices to demonstrate how this multi dimensional approach can be developed and applied in higher education It suggests an ethical approach to higher education practice and to teaching and learning policy development and evaluation As such the book is essential reading for students and scholars of higher education as well as university lecturers managers and policy makers concerned with teaching and learning **EBOOK: Learning Science Teaching: Developing A**

Professional Knowledge Base Keith Bishop,Paul Denley,2007-11-16 Bishop and Denley in Learning Science Teaching have focused as much on good pedagogy as on the peculiarities of science teaching It is for this reason that their book will be of value not only to trainees in education but also to a range of professionals working in schools Higher Education and in particular to those responsible for planning and delivering CPD It is far more than a test for trainee teachers Science Teacher Education Any science teacher looking for ways to improve their teaching will find this book helpful there is perceptive discussion of almost everything that can happen in a science classroom and related work outside it Physics Education What do you need to know to be a successful science teacher How do you develop or acquire that knowledge If you are just embarking on your learning journey as a science teacher or are involved in supporting beginning and early career teachers

on their way then this book is written for you The authors show how the route to success involves the development of a personal yet distinctive and complex set of inter related professional knowledge bases Throughout the book the classroom practice of a group of highly accomplished science teachers is analysed to reveal the knowledge bases that they have acquired which the reader can then reflect upon In addition students provide penetrating insights into the kinds of science teaching that engages them The book argues that highly accomplished science teachers are also continually learning science teachers It stresses the importance of learning through others by participation in communities of science practitioners as well as individual learning through classroom research Whether you are a beginning teacher or a more experienced teacher looking to support beginning and early career teachers this book offers a rich source of experiences ideas and insights to support you on your journey to becoming a successful science teacher

EBOOK: Science beyond the Classroom

Boundaries for 3-7 year olds Lynne Bianchi,Rosemary Feasey,2011-06-16 This innovative book aims to support schools in shifting teaching and learning in primary science by changing teacher perceptions of where science should be taught The authors have not taken a traditional approach to the use of school grounds but a much bolder step in terms of a whole school approach to the science curriculum being taught outside Key features of the book include Practical examples from teachers in schools across England Approaches that combine science and the development of personal capabilities for teachers who want to develop a whole school approach relating to key skills in science Innovative approaches to activities in science using the school grounds Suggestions to help science leaders to develop their staff to be confident in using the school grounds across the science curriculum Development of pupil independence in choosing when and why to take their learning outside the classroom boundaries With a shift from indoors to outdoors comes a range of practical considerations and challenges for both the school and the pupil and these are what the book tackles It is a must read for students on ITT courses and Key Stage 2 teachers who are keen to move their settings forward and provide appropriate progression throughout the primary years

EBOOK: Adult Learning in Groups Brid Connolly,2008-11-16 Group learning plays a central role in contemporary education and training Studying collaboratively has been shown to directly enhance student learning as well as being valued as a key skill This handbook covers the essential elements of groupwork in adult and post compulsory education in an accessible and practical format It discusses the principles underpinning groupwork looking at origins and developments in the field and delves into the technical aspects of group development and the dynamics involved in working groups drawing on key theoretical perspectives and embedding them in adult education The chapters promote participative learning through dialogue discussion and creative activities With over twenty years real experience of groupwork the author provides A set of flexible resources that you can adapt and develop for your own learning environments A series of activities and exercises which can be linked into the stages of group development Ideas for innovative learning programme design Methods that integrate group dynamics with the learning needs of the group A comprehensive definition of key terms Adult Learning in
