## **Wayward Women A Guide To Women Travellers:**

Wayward Women Jane Robinson, 1990 The woman travellers represented in this collection all wrote books of their own These women are mostly British or American and this guide examines the almost one thousand books they produced among them Spanning sixteen centuries it reveals a body of literature full of insight wit and courage      **The Grand Tour Diary of Frederica Murray, 1819-1820** Mark Guscini, 2024-01-15 In 1819 the Murray family set out on one of the last Grand Tours before railways forever changed the way people travelled The eldest daughter of the Second Earl of Mansfield Lady Frederica Murray later Stanhope as she married James Hamilton Stanhope the youngest son of the 3rd Earl of Stanhope kept a diary on the tour which this book explores in detail The diary has never been published not even mentioned in any of the Grand Tour literature and is a fascinating and essential look at the Murray Mansfield family and Europe at the time Frederica was a deeply observant traveller and noted down numerous picturesque and historical details she was also very open and sometimes even cutting in her opinions when she came across something or someone she did not like Frederica's diary shows a very mature 19 year old with clear opinions on art literature and the world around her This book will therefore be interesting for scholars of travel Grand Tours and Regency England and its society as well as anyone with an interest in travel and history      *An Anthology of Women's Travel Writings* Shirley Foster, Sara Mills, 2002 This anthology aims to challenge stereotypes of women travellers Rather than simply presenting writings by Victorian women who travelled bravely around the world disregarding social convention and danger the editors present a range of writing and possible ways of being a woman traveller As well as the eccentric woman traveller the editors have included writings by those who might be seen as failed travellers cautious and conventional travellers and those who did not conform to the adventurous heroine stereotype Because travelling as a woman and writing as a woman presents the author with a number of textual problems which must be negotiated Foster and Mills have chosen to include writings which confronted these problems and which resolved them or did not resolve them in different ways These textual problems include the depiction of other women the representation of spatial relations the negotiations undertaken in relation to the adventure heroine narrative and character and the position taken by the author in relation to the representation of knowledge These issues are all crucial in relation to travel writing by women and the women whose writing has been collected together in this anthology have made bold decisions in relation to them      **Great Women Travel Writers** Alba Amoia, Bettina Knapp, 2006-06-02 Includes ten contributor's writings on 250 years of women travel writers Travel is a quest an escape a passion Women explorers and travellers are a special breed This book covers 22 courageous women who encircled the globe and boldly crossed international barriers often to encounter the most patriarchal cultures of their time      *Travellers to the Middle East from Burckhardt to Thesiger* Geoffrey P. Nash, 2011-07 An invaluable compendium of writing on the Middle East including extracts from canonical and less well known travellers works      *Women, Travel, and Writing in the Interwar Era* Ann Catherine

Hoag,2024-07-31 *Women Travel and Writing in the Interwar Era* engages feminist temporal and narrative theories to offer fresh examinations of interwar era accounts by women about travel and movement and considers the use and limitations of time as a subversive force in their texts This book makes a significant contribution to the under examined study of women s travel writing between the wars and synthesises and applies a variety of feminist narrative and postcolonial theories to excavate new understandings of the intersection between women travel and time in writing The book studies the emergence of the aviatrix after the Great War and moves through to the representations of war in women s travel on the brink of World War II Each chapter offers a unique theoretical framework and examines how experiences of time impact perceptions of women s bodies and identities their engagement with history and discourse and the problematic influence on colonialism *Women Travel and Writing in the Interwar Era* is essential reading to any student or researcher in the field of women s travel writing as well as scholars of gender studies war and interwar history and cultural heritage **The Travel Writings of**

**Marguerite Blessington** Aneta Lipska,2017-06 This book derives from the conviction that Marguerite Blessington 1788 1849 merits scholarly attention as a travel writer and thus offers the first detailed analysis of Blessington s four travel books *A Tour in The Isle of Wight in the Autumn of 1820* *Journal of a Tour through the Netherlands to Paris in 1821* *1822 The Idler in Italy* 1839 and *The Idler in France* 1841 It argues that travelling and travel writing provided Blessington with endless opportunities to reshape her public personae demonstrating that her predilection for self fashioning was related to the various tendencies in tourism and literature as well as the changing aesthetic and social trends in the first half of the nineteenth century **The Smell Of The Continent** James Munson,Richard Mullen,2010-12-10 I remember being much

amused last year when landing at Calais wrote Mrs Frances Trollope in her 1835 book *Paris and the Parisians* at the answer made by an old traveller to a novice making his first voyage What a dreadful smell said the uninitiated stranger it is the smell of the continent sir replied the man of experience And so it was Historians James Munson and Richard Mullen examine just what it was about the smell of the continent that so attracted British travellers in the hundred years from the fall of Napoleon to the outbreak of the First World War It was the first time in history that the British en masse set out to discover Europe Drawing on contemporary accounts diaries and letters Munson and Mullen offer a compelling portrait of the Victorians abroad many of them convinced that their country was not only vastly superior but also the envy of the world From the glowing review coverage *Pure charm* *A N Wilson Reader s Digest* An entertaining and sometimes surprising thought provoking history *Sunday Times* **The Frontiers of Women's Writing** Brigitte Georgi-Findlay,2022-05-10 Although the

myth of the American frontier is largely the product of writings by men a substantial body of writings by women exists that casts the era of western expansion in a different light In this study of American women s writings about the West between 1830 and 1930 a European scholar provides a reconstruction and new vision of frontier narrative from a perspective that has frequently been overlooked or taken for granted in discussions of the frontier Brigitte Georgi Findlay presents a range of

writings that reflects the diversity of the western experience Beginning with the narratives of Caroline Kirkland and other women of the early frontier she reviews the diaries of the overland trails letters and journals of the wives of army officers during the Indian wars professional writings focusing largely on travel by women such as Caroline Leighton from the regional publishing cultures that emerged in the Far West during the last quarter of the century and late nineteenth and early twentieth century accounts of missionaries and teachers on Indian reservations Most of the writers were white literate women who asserted their own kind of cultural authority over the lands and people they encountered Their accounts are not only set in relation to a masculine frontier myth but also investigated for clues about their own involvement with territorial expansion By exploring the various ways in which women writers actively contributed to and at times rejected the development of a national narrative of territorial expansion based on empire building and colonization the author shows how their accounts are implicated in expansionist processes at the same time that they formulate positions of innocence and detachment Georgi Findlay has drawn on American studies scholarship feminist criticism and studies of colonial discourse to examine the strategies of women s representation in writing about the West in ways that most theorists have not She critiques generally accepted stereotypes and assumptions both about women s writing and its difference of view in particular and about frontier discourse and the rhetoric of westward expansion in general as she offers a significant contribution to literary studies of the West that will challenge scholars across a wide range of disciplines Continuing Saga of
