Zestig Jaar K R O Uit De Geschiedenis Van Een Omroep:

The Schism of '68 Alana Harris, 2018-03-02 This volume explores the critical reactions and dissenting activism generated in the summer of 1968 when Pope Paul VI promulgated his much anticipated and hugely divisive encyclical *Humanae Vitae* which banned the use of artificial contraception by Catholics Through comparative case studies of fourteen different European countries it offers a wealth of new data about the lived religious beliefs and practices of ordinary people as well as theologians interrogating traditional teachings in areas relating to love marriage family life gender roles and marital intimacy Key themes include the role of medical experts the media the strategies of progressive Catholic clergy and laity and the critical part played by hugely differing Church State relations In demonstrating the Catholic Church's important and overlooked contribution to the refashioning of the sexual landscape of post war Europe it makes a critical intervention into a growing historiography exploring the 1960s and offers a close interrogation of one strand of religious change in this tumultuous decade

Handbook of Dutch Church History Herman J. Selderhuis, 2014-12-10 Herman Selderhuis as editor of this volume has brought together a team of experts resulting in a unique approach since each chapter is co written by a catholic and a protestant author who have all integrated the latest research results Each section begins with a brief historiographical overview The same time ecclesiastical events are always set within a greater framework of political social and cultural developments for which reason each author has taken the liberty to describe its own method The user will find in this book tables diagrams and illustrations Also many source texts are integrated in the narration These texts are intended to bring the described events and people closer to the reader and as it were to let them speak the words The name of the book as *Handbook of the church history of the Netherlands* immediately brings to mind three problematic complexes which are relevant to its user First there is the nature of a handbook that is intended to be a good tool but also has its limitations it stimulates and necessitates the use of further books Second the area The Netherlands is a plurality and that is also noticeable in its church history for each region town and village has its own church history Third the history of the church for sure is the most important aspect but this history can only be understood if it is described in the context of political and social developments

International Bibliography of Business History Francis Goodall, Terry Gourvish, Steven Tolliday, 2013-12-16 The field of business history has changed and grown dramatically over the last few years There is less interest in the traditional company centred approach and more concern about the wider business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance In addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook The *International Bibliography of Business History* brings all of the strands together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume which covers the depth and breadth of research in business history This exhaustive volume has been compiled by a team of subject specialists from around the

world under the editorship of three prestigious business historians **The Eclipse of Liberal Protestantism in the Netherlands** Tom-Eric Krijger, 2019-09-16 In *The Eclipse of Liberal Protestantism in the Netherlands* Tom Eric Krijger is the first to offer a synthesis of the development of the Protestant modernist movement in Dutch religious social cultural and political life between 1870 and 1940 In historiography the liberal Protestant community is said to have lost appeal and influence in these decades due to a lack of theological clarity inner harmony and organisation Analysing liberal Protestants self perception vis vis Christian orthodoxy self understanding as a faith community attitude towards other alternatives to orthodoxy class consciousness literary criticism political commitment and involvement with foreign mission Krijger challenges this view Making an international comparison he argues that the Dutch modernist movement failed to make headway primarily due to liberal Protestant expectations and discourse **Historical Research in the Low Countries, 1983-1985** J. individual countries in North West Europe namely Germany Belgium the Netherlands the United Kingdom Ireland Norway Sweden and Denmark The concept of material religion is approached in a very inclusive way The volume discusses amongst others parish infrastructures and religious buildings that are part of land and cityscapes but also looks into interior design and decorations of chapels churches monasteries cemeteries and educational charitable and health institutions It comprises the fine arts of religious painting and sculpture the applied arts and iconographic designs As far as private material culture is concerned this volume examines and presents objects related to private devotion at home including a great variety of popular devotional and everyday life objects such as booklets cards photographs and posters Zielzorg en Verzet G.J. van

De opmars van deskundigen Frans van Lunteren, 2002 Deskundigen beleven hoogtijdagen Hun rol in de samenleving wordt zo dominant dat we volgens sommigen op een expertocratie afstevenen Tegelijkertijd neemt het vertrouwen in deskundigen af zeker waar hun uitspraken ons direct raken zoals bij het inschatten van gezondheids en veiligheidsrisico's Maar wie het ongelijk van een expert wil aantonen komt altijd onvermijdelijk terecht bij een andere expert Toch is er iets aan het veranderen De deskundige die als een soort rechter het laatste woord heeft is op zijn retour Meer en meer worden deskundigen gezien als wetenschappelijke hulptroepen die door belangengroepen kunnen worden gemobiliseerd Deskundigheid wordt zo een instrument in het democratisch proces Het hoe en waarom van deze ontwikkeling wordt geïllustreerd met voorbeelden uit uiteenlopende wetenschapsgebieden als de opvoedkunde de meteorologie de forensische psychiatrie de statistiek de genetica en de landbouw Enkele actuele voorbeelden laten zien hoe deskundigen zich steeds meer profileren als veelstemmige belangenbehartigers De laatste jaren zien we de deskundige zelfs uitgroeien tot mediafenomeen Tijdschrift voor sociale geschiedenis, 2002
