Zombie Movies The Ultimate Guide:

Zombie Movies Glenn Kay, 2008-10 Featuring chronological reviews of more than 300 zombie films from 1932's *White Zombie* to George A. Romero's 2008 release *Diary of the Dead* this thorough uproarious guide traces the evolution of one of horror cinema's most popular and terrifying creations Fans will learn exactly what makes a zombie a zombie go behind the scenes with a chilling production diary from *Land of the Dead* peruse a bizarre list of the oddest things ever seen in undead cinema and immerse themselves in a detailed rundown of the 25 greatest zombie films ever made Containing an illustrated zombie rating system ranging from Highly Recommended to Avoid at All Costs and So Bad It's Good the book also features lengthy interviews with numerous talents from in front of and behind the camera **Zombies! the Ultimate Guide to Zombie Movies Vol. 1: 1914 - 1969** Joe Glancey, 2017-05-17 *White Zombie* the movie considered to be Hollywood's first zombie movie was released in 1932 but cinema had already depicted creatures which while not technically zombies shared some of their recognisable characteristics In James Young's *Lola* 1914 a grieving Doctor brings his kindly deceased daughter back to life only to discover that the permanent loss of her soul has turned her into a cold hearted temptress German filmmaker Robert Weine's classic 1920 expressionist horror *The Cabinet of Dr. Caligari* featured the wretched pale skinned Cesare a somnambulist under the control of a malevolent fairground showman Other notable antecedents of the zombie sub genre are two Czechoslovakian horror films *Arrival from Darkness* in which a wealthy landowner finds himself competing with a reanimated ancestor for the affections of his wife and *The Wedding Shirt* which tells of a young girl whose prayers for the return of her lost lover resurrects a malevolent spirit Until George A. Romero transformed the sub genre with *Night of the Living Dead* in 1968 the zombie was found shuffling listlessly around the movie making basement the domain of impoverished Poverty Row studios who cared little about art or characterisation The films were cheap and usually quite bad but there was the occasional exception Val Lewton delivered a nuanced thoughtful addition to the sub genre with 1943's *I Walked with a Zombie* based in part on Charlotte Brontë's 19th Century romantic novel *Jane Eyre* Herk Harvey's haunting *Carnival of Souls* 1962 provided an unusual perspective on returning from the dead while Hammer applied their usual brand of quality to *Plague of the Zombies* a chilling horror movie featuring a nightmare sequence in which the dead are seen rising from their graves that has provided inspiration for a whole generation of filmmakers However it was Romero's low budget *Night of the Living Dead* that would prove to be the game changer After his movie filmmakers would no longer play on our fears of being turned into a zombie by some twisted madman instead they would terrify us with the prospect of becoming their prey of having our flesh ripped apart by predatory if shambling monstrosities of nature made all the more horrifying by the fact that they were once like us This book is the first in a series that aims to chronicle review and rate every feature length zombie movie ever made The good the bad and the indifferent will all come under scrutiny with as much consideration given to the obscure low budget rarity as to major studios blockbusters **Zombie Movies** Glenn Kay, Alejandro Brugués, 2012-10-01
