Egyptian Cinema and the 2011 Revolution Ahmed Ghazal, 2020-11-26

Egypt's film industry is the largest in the Middle East with an output that spreads across the region and the world. In the run up to and throughout the 2011 Revolution a complex relationship formed between the industry and the people's uprising. Both a form of political expression and a documentation of historical events, revolutionary film techniques have contributed to the cultural memory of 2011. At the same time, these films and their makers have been the target of increasing state control and intervention. Ahmed Ghazal, drawing upon his own background in film making, looks at the way in which Egyptian film has shaped and been shaped by the events leading up to and beyond Egypt's 2011 revolution. Drawing on interviews with protagonists in the industry, analysis of films and archival research, he analyses the critical issues affecting the political economy of the industry. He also explores the technological developments of independent productions and the cinematic themes of dictatorship, poverty, corruption and police brutality that have accompanied the people's calls for freedom and the counterrevolution that has tried to suppress them. *The Annotations to All Sections of the Complete General Code of Ohio* William Herbert Page, 1922 *Soviet Cinematography, 1918-1991* Michael R. Greenberg, Dmitry Shlapentokh, 2021-12-24 With a historical sweep that recent events have made definitive, the authors examine the influence of Soviet ideology on the presentation of social reality in films produced in the Soviet Union between the October Revolution and the final days of glasnost. Within the framework of an introduction that lays out the conceptual terminology used to describe that shifting ideological landscape, the authors analyze both the social groups appearing in the films and the relations of film directors and other film makers to state censorship and ideological control. **Serials and Series** Buck Rainey, 2015-06-08 While many fans remember The Lone Ranger, Ace Drummond, and others, fewer focus on the facts that serials had their roots in silent film and that many foreign studios also produced serials, though few made it to the United States. The 471 serials and 100 series continuing productions without the cliffhanger endings from the United States and 136 serials and 37 series from other countries are included in this comprehensive reference work. Each entry includes title, country of origin, year, studio, number of episodes, running time, or number of reels, episode titles, cast, production credits, and a plot synopsis. **The Cambridge Magazine**, 1919 **The Federal Statutes Annotated** United States, 1918 **A Treatise on Hydromechanics ...: Hydrostatics**, by W. This new edition of a classic work explores historical and social movements and the effects these have had on the production of art, the centrality of class and class struggle, the cultural roles of ideologies, and the determining influence of modes of economic development. There are 144 illustrations within the four volumes, and each volume has a new general introduction by Jonathan Harris, which traces the history of Hauser's project, discusses the relevance of the work for art history today, provides a synopsis of Hauser's narrative, and offers a critical guide.
