He traveled widely to talk, chant, and meditate with practitioners of a variety of Eastern religions. The growing popularity of Eastern wisdom, Pope feels, represents a massive new opposition to technology and science, even a rejection of the philosophical foundations of Western thought. And he proposes that the study and practice of Eastern disciplines offer a better solution to drug abuse than any program put forth by medical or governmental officials. Pope estimates that over one million Americans, young and old alike, are turning inward and discovering both a philosophy and a discipline not offered in the Western experience. Publisher
