

Uniform State Test (UST) Implementation Information

The Department will not be making available test materials, materials will not be sold, or the tests will not be taken in any way that would compromise the security of the assessment. Additionally, the Department will not be releasing or discussing information about the test results.

Overview

On April 1, 2022, NWEA is launching the Uniform State Test for UST. This is the first major change to NWEA's K-12 Test requirements since the NWEA K-12 tests were launched in July 2019.

This UST is a new addition to practice for the National Test. This new addition includes 10 questions which bring the length of the National Test Component with Uniform State Component. The questions, of which 50% are new and 50% are old, are new. The new questions bring the total length of the National Test to 100 questions.

This UST includes test questions on the knowledge of high level state subject content that is tested on the NWEA K-12 Test and the NWEA K-12 Test. The Uniform State Component will be used to implement the NWEA K-12 Test. The questions are for the National Test Component with Uniform State Component, and the State-level UST is being implemented. This UST implements state-specific test components for the states that adopt it. Therefore, by passing the National with Uniform State Component as the State-level UST, a candidate receives the testing experience for learning in the National Test, and also states that adopt it separately.

As of July 1, 2022, all states that have adopted the UST. The National Test questions may be used for preparing UST as a whole state, but they are not required to be used. State agencies should consider to adopt the UST with content for specific questions to test candidates who received state-specific knowledge. For a list of states that have adopted the UST, see the [UST Implementation and Table](#).
