Burnett,2011-05-11 The chapters in this volume were originally presented as papers at the 2009 colloquium of the Calvin Studies Society held to mark the five hundredth anniversary of John Calvin s birth They offer a fresh evaluation of Calvin s ideas and achievements and describe how others from his contemporaries to the present have responded to or built upon the Calvinist heritage This book dispels popular misperceptions about Calvin and Calvinism allowing readers to make a more accurate assessment of Calvin s importance as a theologian and historical figure Contributions address areas in which Calvin s legacy has been most

controversial or misunderstood such as his attitude toward women his advocacy of church discipline and his understanding of predestination These essays also give a nuanced picture of the impact of Calvinism by taking account of both the positive and negative reactions to it from the early modern period to the present Part 1 Calvin The Man and His Work Part 2 Appeal of and Responses to Calvinism Part 3 The Impact of Calvin's Ideas

The Coffin in the Attic Lina Pranaityte-Wergin, 2018-09 This book addresses the gift economy of the Roman Catholic Church one of the wealthiest institutions in the world on the basis of ethnographic data from rural Lithuania Lina Pranaityt explores the links between Catholic doctrine and the exchange of material and immaterial things that express continuous obligations to support parish clergy and churches but also fundamental human indebtedness She also explains why going to church is such an important ritual how religion has become an inalienable national possession of a country who counts as a non practicing Catholic in this postsocialist country and why local people store coffins in their attics This is a novel book in the anthropology of religion with a challenging objective to apply a Maussian gift exchange perspective to understanding the life ways of rural Catholics The result is a rich ethnography and a splendid analysis of the interrelatedness between the Church the priests God the local community and the dead Vytis Iubinskis Professor of Social Anthropology Vytautas Magnus University Lithuania

Scientific Models for Religious Knowledge Andrew Ralls Woodward, 2018-08-14 Most comparisons of science and religion are really comparisons of science and Christianity or science and Islam and so forth In *Scientific Models for Religious Knowledge* the author aims to get outside typical polarized debates between traditional a priori theism and radical scientific naturalism Instead a new science and religion compatibility system between a scientific study of religion and a religious epistemology is our new elusive problem Moreover we shall look at a comparison and contrast of modern science with the simple deference of the human mind to the actions of culturally postulated superhuman agents This book pays critical attention to the

contributions of scholars in the philosophy of religion the philosophy of science and the scientific study of religion Scientific Models for Religious Knowledge is useful for readers looking to expand their learning in the philosophies of science and religion as these subjects are taught and analyzed in modern research universities **Atheism at the Agora** James C Ford, 2023-08-11 This fresh comprehensive study of ancient Greek atheism aims to dismantle the current consensus that atheism was unthinkable in ancient Greece demonstrating instead that atheism was not only thinkable but inextricably embedded in the Greek religious environment Through careful analysis of a wide range of source material provided in modern English translation and drawing on philosophy theology sociology and other disciplines Ford unpicks a two and a half thousand year history of marginalisation clearing the way for a new analysis He lays out in clear terms the nature and form of ancient Greek atheism as the ancient Greeks conceived of it through a series of themes and lenses Topics such as religious socialisation the interaction of atheist philosophy and theology identity formation through alterity and the use of atheism in scapegoating are considered not only in broad terms using a synthesis of modern scholarship to mark out an overview in line with modern consensus but also by drawing on the unique perspective of ancient atheism Ford is able to provide innovative theories about a range of subjects Atheism at the Agora is of interest to students and scholars in Classics particularly Greek religion and culture as well as those studying atheism in other historical and contemporary areas religious studies philosophy and theology
