The authors show that the Slavs did not settle an empty space and simply replace the Celto Roman inhabitants of earlier times they are on the contrary presented as the result of reciprocal acculturation The authors show that the Slovenes made more than two important appearances throughout the entire feudal era the same holds for later periods especially for the twentieth century This book offers a concise and complete history of an area that finally became an integral part of Central Europe and the Balkans Pub desc **The Slovenes and Yugoslavism, 1890-1914** Carole Rogel,1977 The Middle Ages between the Eastern Alps and the Northern Adriatic Peter Štih,2010-08-13 The book deals with the Slovene historiography and history of the Slovene and neighbouring territories in the Middle Ages It is the first work of its kind published in English It thus makes the medieval history of this part of Europe and some of its fundamental problems accessible to the widest range of researchers It contains 18 papers which comply with modern methodological approaches and current trends in historiography and it puts the validity and usefulness of these methods to the test in the case of Slovene material and examples The first part of the book critically examines Slovene historiography which largely viewed the Middle Ages from a national angle The second part is dedicated to early medieval history focussing on issues of Slavic ethnogeneses society and political structures The third part addresses chapters from the history of the Church the nobility and the formation of L nder and also discusses the famous enthronement of the Carinthian dukes *Zgodovina slovenskega naroda* Josip Gruden,1912
