An Unknown Orientalist Ibolya Gerelyes, Orsolya Kovács, 1999 Pottery and Porcelain of All Times and Nations William Cowper Prime, 2015-06-25 Excerpt from Pottery and Porcelain of All Times and Nations With Tables of Factory and Artists Marks for the Use of Collectors Ten years ago there were probably not ten collectors of Pottery and Porcelain in the United States To day there are perhaps ten thousand The exhibition in public museums of the fine works of ceramic art loaned by the few collectors who possessed them revealed for the first time to the American public the wealth of beauty which is in old china and now in nearly every city town and village in the land more or less persons are collecting The need of a book of the kind which I have endeavored to make has been manifest for some time What to collect and why how to collect and classify are questions asked by many and answered only by European works in French and English which indeed answer the questions better than this does but are unfortunately inaccessible to the American collector outside of our larger cities The preparation of the needed Volume has not been a voluntary undertaking with me It was with extreme reluctance that I yielded to the urgent request of the publishers to make a book on Ceramic Art for American readers students and collectors The very idea of a book for these three classes of people might well appall an author looking at the vast extent of the subject Those who are familiar with the art will appreciate the impossibility of bringing into one volume even a condensed sketch of its history for the general reader much more a critical examination of its products for the student and a descriptive account

of characteristics and marks for the use of the collector For this art is the oldest the longest the most widely diffused of all human arts It has been used by every tribe of man savage and civilized Probably the first fire which Adam kindled on a clay soil taught him to make earthenware and his descendants have ever since used the art he discovered Its known history begins with the brickmakers on the plain of Shinar and every year of this nineteenth century after Christ adds material for new pages About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
