Menninger, Anthony J. Steinhoff**

Tristans Shadow Sexuality And The Total Work Of Art After Wagner:

Tristan's Shadow Adrian Daub, 2013-11-25 Das Rheingold Die Walküre and Siegfried Parsifal Tristan und Isolde Both revered and reviled Richard Wagner conceived some of the nineteenth century's most influential operas and created some of the most indelible characters ever to grace the stage But over the course of his polarizing career Wagner also composed volumes of essays and pamphlets some on topics seemingly quite distant from the opera house His influential concept of Gesamtkunstwerk the total work of art famously and controversially offered a way to unify the different media of an opera into a coherent whole Less well known however are Wagner's strange theories on sexuality like his ideas about erotic acoustics and the metaphysics of sexual difference Drawing on the discourses of psychoanalysis evolutionary biology and other emerging fields of study that informed Wagner's thinking Adrian Daub traces the dual influence of Gesamtkunstwerk and eroticism from their classic expressions in Tristan und Isolde into the work of the generation of composers that followed including Zemlinsky and Albert Schreker and Strauss For decades after Wagner's death Daub writes these composers continued to grapple with his ideas and with his overwhelming legacy trying in vain to write their way out from Tristan's shadow

Tristan's Shadow Adrian Daub, 2024-05-31 Das Rheingold Die Walküre and Siegfried Parsifal Tristan und Isolde Both revered and reviled Richard Wagner conceived some of the nineteenth century's most influential operas and created some of the most indelible characters ever to grace the stage But over the course of his polarizing career Wagner also composed volumes of essays and pamphlets some on topics seemingly quite distant from the opera house His influential concept of Gesamtkunstwerk the total work of art famously and controversially offered a way to unify the different media of an opera into a coherent whole Less well known however are Wagner's strange theories on sexuality like his ideas about erotic acoustics and the metaphysics of sexual difference Drawing on the discourses of psychoanalysis evolutionary biology and other emerging fields of study that informed Wagner's thinking Adrian Daub traces the dual influence of Gesamtkunstwerk and eroticism from their classic expressions in Tristan und Isolde into the work of the generation of composers that followed including Zemlinsky and Albert Schreker and Strauss For decades after Wagner's death Daub writes these composers continued to grapple with his ideas and with his overwhelming legacy trying in vain to write their way out from Tristan's shadow

Feeling Film Beth Carroll, 2016-11-25 This book questions the de facto dominance of narrative when watching films Using the film musical as a case study this book explores whether an alternative spatial understanding of film can offer alternative readings to narrative For instance how do film aesthetics influence our interaction with the film Can camera movement and music make us feel cinema Can the film world bleed into our own Utilising film musicals ranging from those by Fred Astaire and Ginger Rogers to von Trier's *Dancer in the Dark* 2000 *Feeling Film A Spatial Approach* investigates how we might go about understanding the audience's spatial relationship with film aesthetics what it might look like and the tools needed to conduct analysis

The Total Work of Art David Imhoof, Margaret Eleanor Menninger, Anthony

J. Steinhoff, 2016-07-01 For two centuries Gesamtkunstwerk the ideal of the total work of art has exerted a powerful influence over artistic discourse and practice spurring new forms of collaboration and provoking debates over the political instrumentalization of art Despite its popular conflation with the work of Richard Wagner Gesamtkunstwerk's lineage and legacies extend well beyond German Romanticism as this wide ranging collection demonstrates In eleven compact chapters scholars from a variety of disciplines trace the idea's evolution in German speaking Europe from its foundations in the early nineteenth century to its manifold articulations and reimaginings in the twentieth century and beyond providing an uncommonly broad perspective on a distinctly modern cultural form **Curtain, Gong, Steam** Gundula

Kreuzer, 2018-05-18 In this innovative book Gundula Kreuzer argues for the foundational role of technologies in the conception production and study of nineteenth century opera She shows how composers increasingly incorporated novel audiovisual effects in their works and how the uses and meanings of the required apparatuses changed through the twentieth century sometimes still resonating in stagings performance art and popular culture today Focusing on devices which she dubs Wagnerian technologies intended to amalgamate opera's various media while veiling their mechanics Kreuzer offers a practical counternarrative to Wagner's idealist theories of total illusionism At the same time *Curtain Gong Steam*'s multifaceted exploration of the three titular technologies repositions Wagner as catalyst more than inventor in the history of operatic production With its broad chronological and geographical scope this book deepens our understanding of the material and mechanical conditions of historical operatic practice as well as of individual works both well known and obscure

The Dynastic Imagination Adrian Daub, 2021-02-17 Adrian Daub's *The Dynastic Imagination* offers an unexpected account of modern German intellectual history through frameworks of family and kinship Modernity aimed to brush off dynastic hierarchical authority and to make society anew through the mechanisms of marriage siblinghood and love It was in other words centered on the nuclear family But as Daub shows the dynastic imagination persisted in time emerging as a critical stance by which the nuclear family's conservatism and temporal limits could be exposed Focusing on the complex interaction between dynasties and national identity formation in Germany Daub shows how a lingering preoccupation with dynastic modes of explanation legitimation and organization suffused German literature and culture Daub builds this conception of dynasty in a syncretic study of literature sciences and the history of ideas engaging with remnants of dynastic ideology in the work of Richard Wagner mile Zola and Stefan George and in the work of early feminists and pioneering psychoanalysts At every stage of cultural progression Daub reveals how the relation of dynastic to nuclear families inflected modern intellectual history **Joyce Studies Annual 2016** Philip T. Sicker, Moshe Gold, 2017-01-18 An indispensable resource for scholars and students of James Joyce *Joyce Studies Annual* gathers essays by foremost scholars and emerging voices in the field **Music**

and the Queer Body in English Literature at the Fin de Siècle Fraser Riddell, 2022-04-14 The first comprehensive study of music and queer identities in late nineteenth and early twentieth century English literature *The Challenge of Nietzsche*

Jeremy Fortier, 2020-03-24 Friedrich Nietzsche is one of the most widely read authors in the world from the time of his death to the present as well as one of the most controversial. He has been celebrated as a theorist of individual creativity and self care but also condemned as an advocate of antimodern politics and hierarchical communalism. Rather than treating these approaches as mutually exclusive, Jeremy Fortier contends that we ought instead to understand Nietzsche's complex legacy as the consequence of a self-conscious and artful tension woven into the fabric of his books. *The Challenge of Nietzsche* uses Nietzsche as a guide to Nietzsche, highlighting the fact that Nietzsche equipped his writings with retrospective self-commentaries and an autobiographical apparatus that clarify how he understood his development as an author, thinker, and human being. Fortier shows that Nietzsche used his writings to establish two major character types: the Free Spirit and Zarathustra, who represent two different approaches to the conduct and understanding of life: one that strives to be as independent and critical of the world as possible and one that engages with, cares for, and aims to change the world. Nietzsche developed these characters at different moments of his life in order to confront contrasting perspectives, such as elemental experiences as the drive to independence, the feeling of love, and the assessment of one's overall health or well-being. Understanding the tension between the Free Spirit and Zarathustra takes readers to the heart of what Nietzsche identified as the tensions central to his life and to all human life.

Giacomo Puccini and His World Arman Schwartz, Emanuele Senici, 2016-08-09 Giacomo Puccini (1858–1924) is the world's most frequently performed operatic composer, yet he is only beginning to receive serious scholarly attention. In *Giacomo Puccini and His World*, an international roster of music specialists, several writing on Puccini for the first time, offers a variety of new critical perspectives on the composer and his works. Containing discussions of all of Puccini's operas from *Manon Lescaut* (1893) to *Turandot* (1926), this volume aims to move beyond clichés of the composer as a Romantic epigone and to resituate him at the heart of early twentieth-century musical modernity. This collection's essays explore Puccini's engagement with spoken theater and operetta and with new technologies like photography and cinema. Other essays consider the philosophical problems raised by realist opera, discuss the composer's place in a variety of cosmopolitan formations, and reevaluate Puccini's orientalism and his complex interactions with the Italian fascist state. A rich array of primary source material, including previously unpublished letters and documents, provides vital information on Puccini's interactions with singers, conductors, and stage directors and on the early reception of the verismo movement. Excerpts from Fausto Torrefranca's notorious *Giacomo Puccini and International Opera*, perhaps the most vicious diatribe ever directed against the composer, appear here in English for the first time. The contributors are Micaela Baranello, Leon Botstein, Alessandra Campana, Delia Casadei, Ben Earle, Elaine FitzGibbon, Walter Frisch, Michele Girardi, Arthur Groos, Steven Huebner, Ellen Lockhart, Christopher Morris, Arman Schwartz, Emanuele Senici, and Alexandra Wilson.
