Triumph Stag Manual Or Automatic:

Triumph Stag Matthew Vale, 2014-05-31 The Triumph Stag was a two door four seat luxury touring car designed to be Triumph's flagship model for the 1970s. Styled by prolific designer Giovanni Michelotti and engineered by Harry Webster and Spen King, the Stag had no direct competitors throughout its production life and was the blueprint for the many four seat convertibles on the market today. It was in production from 1970 through to 1977 but suffered from a lack of development and gained a reputation for engine problems caused by poor cooling. *Triumph Stag An Enthusiast's Guide* explores the history, design and development of the car, taking a special look at the Stag's unique Triumph V8 engine and how Stag owners today have largely solved the cooling problems. It also covers owners' experiences, specialist modifications and improvements, and the car clubs that help the Stag remain one of the most popular classic cars in the UK. Superbly illustrated with 121 colour photographs.

Triumph Stag Norm Mort, 2017 Triumph's Stag combined the smoothness and performance of a V8 with stylish Italian coachwork designed by Giovanni Michelotti, allowing for both closed and open grand touring. This invaluable book examines all aspects of the model, from key features to problem areas, with photographs of both restored and original examples.

British Leyland James Taylor, 2018-03-26 In 1968 British Leyland brought together many of Britain's motor manufacturers with the intention of creating a robust unified group that could equal the strength of the big European conglomerates. But this was not to be. There have been many books about the politics and the business activities of British Leyland, but *British Leyland The Cars 1968-1986* looks exclusively at the cars that came from the company, both the models it inherited and those it created. The eighteen years of the corporation's existence saw a confusing multitude of different car types, but this book resolves these confusions, clarifying who built what and when. The book takes 1986 as its cut-off point because this was the year that the old British Leyland ceased to exist and what was left of the car and light commercial business was renamed the Rover Group. The book includes production histories and technical specifications of every major model. The special overseas models. Appendices on engines, code names and factories. Buying guidance on the models built in Britain. This is the most comprehensive book so far to focus on the cars from British Leyland between 1968-1986, and it provides an overview of each model's production history together with essential specification details. It is profusely illustrated with 178 colour and 63 b/w photographs.
