Writing and Reading Mental Health Records J. Frederick Reynolds,David C. Mair,Pamela C. Fischer,2013-12-02 This revised and updated second edition is a rhetorical analysis of written communication in the mental health community As such it contributes to the growing body of research being done in rhetoric and composition studies on the nature of writing and reading in highly specialized professional discourse communities Many compelling questions answered in this volume include What ideological biases are reflected in the language the nurse rhetorician uses to talk to and talk about the patient How does language figure into the process of constructing meaning in this context What social interactions with the patient with other nurses with physicians influence the nurse s attempt to construct meaning in this context How do the readers of assessment construct their own meanings of the assessment Based on an ongoing collaboration between composition studies specialists and mental health practitioners this book presents research of value not only to writing scholars and teachers but also to professional clinicians their teachers and those who read mental health records in order to make critically important decisions It can also be valuable as a model for other scholars to follow when conducting similar long range studies of other writing intensive professions

Individualizing Psychological Assessment Constance T. Fischer,2012-12-06 Assessments by psychologists educators and other human service professionals too often end with the client being reported in terms of scores bell shaped curves traits psychodynamic forces or diagnostic labels Individualizing Psychological Assessment uses these classification devices in ways that facilitate returning from them to the individual s life both during the assessment session and in written reports The book presents an approach and procedures through which a person s actual life becomes the subject matter of assessment Thoroughly revised from the previous edition the book presents a wide range of concrete examples and illustrative cases that will serve both students and practicing professionals alike in individualizing assessments
