We The People Of Europe Reflections Reflections On Transnational Citizenship:

We, the People of Europe? Étienne Balibar, 2009-01-10 Étienne Balibar has been one of Europe's most important philosophical and political thinkers since the 1960s. His work has been vastly influential on both sides of the Atlantic throughout the humanities and the social sciences. In *We the People of Europe* he expands on themes raised in his previous works to offer a trenchant and eloquently written analysis of transnational citizenship from the perspective of contemporary Europe. Balibar moves deftly from state theory, national sovereignty and debates on multiculturalism and European racism toward imagining a more democratic and less state-centered European citizenship. Although European unification has progressively divorced the concepts of citizenship and nationhood, this process has met with formidable obstacles. While Balibar seeks a deep understanding of this critical conjuncture, he goes beyond theoretical issues. For example, he examines the emergence alongside the formal aspects of European citizenship of a European apartheid or the reduplication of external borders in the form of internal borders nurtured by dubious notions of national and racial identity. He argues for the democratization of how immigrants and minorities in general are treated by the modern democratic state and the need to reinvent what it means to be a citizen in an increasingly multicultural, diversified world. A major new work by a renowned theorist, *We the People of Europe* offers a far-reaching alternative to the usual framing of multicultural debates in the United States while also engaging with these debates.

We, the People of Europe?, 2008 Étienne Balibar has been one of Europe's most important philosophical and political thinkers since the 1960s. His work has been vastly influential on both sides of the Atlantic throughout the humanities and the social sciences. In *We the People of Europe* [The Ethos of Europe](#) Andrew Williams, 2010-03-11 Andrew Williams analyses the role of values in the European Union and suggests how to make the EU more just.

Handbook of Political Citizenship and Social Movements Hein-Anton van der Heijden, 2014-10-31 This Handbook uniquely collates the results of several decades of academic research in these two important fields. The expert contributions successively address the different forms of political citizenship and current approaches and recent development.

The Future of Europe Serge Champeau, Carlos Closa, Daniel Innerarity, Miguel Poiares Maduro, 2014-11-03 The European Union seems to have rescued its single currency but it has not yet put an end to the crisis. In this major new book a group of fifteen international philosophers, economists, political scientists, sociologists and legal experts compare the economic, political, constitutional, social and cultural interpretations of the European crisis. They describe the challenges the EU faces in relation to legitimacy and democracy and address head-on the uncertainty over the future of Europe. The book considers different possible scenarios from the Union's dissolution with or without the continuation of the integration process to its reinforcement through the building of a political union addressing the challenges of legitimacy, democracy and justice. Such a strengthened union could mark a new stage for democracy, not the democracy of ancient cities and modern states but one convenient to the complex entities, neither national nor supra-national, of which the European Union, despite the crisis, is

While portrayals of immigrants and their descendants in France and throughout Europe often center on burning cars and radical Islam *Citizen Outsider* Children of North African Immigrants in France paints a different picture Through fieldwork and interviews in Paris and its banlieues Jean Beaman examines middle class and upwardly mobile children of Maghribin or North African immigrants By showing how these individuals are denied cultural citizenship because of their North African origin she puts to rest the notion of a French exceptionalism regarding cultural difference race and ethnicity and further centers race and ethnicity as crucial for understanding marginalization in French society *Reconstructions of Canadian Identity* Vander Tavares, Maria João Maciel Jorge, 2024-04-19 Re envisioning multiculturalism in Canada In 1971 Canada became the first nation in the world to officially declare its bilingual and multicultural policies *Reconstructions of Canadian Identity* examines what has changed over the past fifty years highlighting the lived experiences of marginalized Canadians and offering insights into the critical work that lies ahead Editors Vander Tavares and Maria João Maciel Jorge bring together a wide range of disciplines and perspectives to investigate inclusion and exclusion within the processes discourses and practices that forge and frame Canadian identity Chapters analyze ways current multicultural policies continue to benefit the dominant groups and further harm minoritized ones Exposing the pitfalls of established notions of Canadian identity this volume moves traditionally othered identities immigrant racialized hybridized Indigenous and women to the forefront In doing so it reveals how these identities negotiate and claim legitimacy arguing for a reconceptualization from the margins that truly fosters diversity and inclusion Illustrating both the shortcomings of and possibilities for a more inclusive multiculturalism in Canada *Reconstructions of Canadian Identity* invites readers to reflect on what it means to be Canadian in the twenty first century **Europe Old and New** Ray Taras, 2009 Is Europe indeed uniting or instead falling apart as a result of anti immigrant prejudices a massive Islamic influx and ancient intra European hatreds This innovative and engaging book explores the sources of Europe's culture based divide arguing that the idea of two Europes is grounded both in reality and myth The accession process that brought a dozen new members into the European Union after 2004 has highlighted the persisting gulf between old and new Europe despite the many physical barriers that have crumbled Ray Taras examines the treaties political rhetoric citizen attitudes and literary narratives of belonging and separation that both bind and fray the fabric of Europe Throughout this interdisciplinary work provides a comprehensive hard hitting and unabashed review of how enlarged Europe embraces contrasting understandings of its political home *The Irregularization of Migration in Contemporary Europe* Yolande Jansen, Robin Celikates, Joost de Bloois, 2014-12-12 Working from an interdisciplinary perspective that draws on the social sciences legal studies and the humanities this book investigates the causes and effects of the extremities experienced by migrants Firstly the volume analyses the development and political cultural conditions of

current practices and discourses of bordering illegality and irregularization Secondly it focuses on the varieties of irregularization and on the diversity of the fields techniques and effects involved in this variegation Thirdly the book examines examples of resistance that migrants and migratory cultures have developed in order to deal with the predicaments they face The book uses the European Union as its case study exploring practices and discourses of bordering border control and migration regulation But the significance of this field extends well beyond the European context as the monitoring of Europe's borders increasingly takes place on a global scale and reflects an internationally increasing trend Routledge Handbook of European Sociology Sokratis Koniordos,Alexandros Kyrtis,2014-09-04 The Routledge Handbook of European Sociology provides over forty original groundbreaking state of the art accounts each expert contribution teasing out the distinctively European features of the sociological theme it explores The Handbook is divided in four parts intellectual and institutional settings regional variations thematic variations and European concerns **Governing Borders and Security** Catarina Kinnvall,Ted Svensson,2014-09-19 This book explores and maps the relationship between borders security and global governance Theoretically the book seeks to establish to what degree and in what ways traditional notions of borders security and global governance are being eroded undermined and contested in the context of a globalising world Borders are increasingly being re conceptualised to account for connectivity as well as divisions at the same time as focus is shifting from permanence to permeability The ambivalence ascribed to bordering processes is at heart a security concern borders are not only entwined with state formation but are also attempts at governing securities identities and histories Proceeding from a critical rendering of statist conceptualisations of borders security and governance the book not only emphasises the politics of borders mobility and re locations but also provides a shared groundwork for interrogating the spatial conditions for bordering and border work as manifestations of a continuously deferred becoming rather than being A principal contribution of the volume is its scrutiny of how borders are enacted and perceived in and through the everyday and of how such production and construal can make sense as acts of resistance to various forms of governing Such a focus reveals the necessity of investigating how governing from afar affects the possibilities and tendencies to securitise as well as desecuritise within as well as beyond elite settings This book will be of much interest to students of border studies human geography governmentality global governance and IR critical security studies *Reconsidering EU Citizenship* Sandra Seubert,Oliver Eberl,Frans van Waarden,2018-04-27 25 years after the introduction of EU citizenship this book reconsiders its contradictions and constraints as well as promises and prospects Analyzing a disputed concept and evaluating its implementation and social effects Reconsidering EU Citizenship contributes to the lively debate on European and transnational citizenship It offers new insights for the ongoing theoretical debates on the future of EU citizenship a future that will be determined by the transformative path the EU is going to take vis vis the centrifugal forces of the current economic and political crisis **The Time of Popular Sovereignty** Paulina Ochoa Espejo,2015-09-10 Democracy is usually

conceived as based on self rule or rule by the people and it is this which is taken to ground the legitimacy of the democratic form of government But who constitutes the people Democratic political theory has a potentially fatal weakness at its core unless it can answer this question satisfactorily In *The Time of Popular Sovereignty* Paulina Ochoa Espejo examines the problems the concept of the people raises for liberal democratic theory constitutional theory and critical theory She argues that to solve these problems the people cannot be conceived as simply a collection of individuals Rather the people should be seen as a series of events an ongoing process unfolding in time She then offers a new theory of democratic peoplehood laying the foundations for a new theory of democratic legitimacy

Citizenship and Its Exclusions Ediberto Román, 2010-05-01

Citizenship is generally viewed as the most desired legal status an individual can attain invoking the belief that citizens hold full inclusion in a society and can exercise and be protected by the Constitution Yet this membership has historically been exclusive and illusive for many and in *Citizenship and Its Exclusions* Ediberto Román offers a sweeping interdisciplinary analysis of citizenship's contradictions Román offers an exploration of citizenship that spans from antiquity to the present and crosses disciplines from history to political philosophy to law including constitutional and critical race theories Beginning with Greek and Roman writings on citizenship he moves on to late medieval and Renaissance Europe then early Modern Western law and culminates his analysis with an explanation of how past precedents have influenced U S law and policy regulating the citizenship status of indigenous and territorial island people as well as how different levels of membership have created a de facto subordinate citizenship status for many members of American society often lumped together as the underclass

The Integration and Protection of Immigrants Paul Van Aerschot, Patricia Daenzer, 2016-02-24 In Scandinavian countries immigration is a sensitive issue and legislators' approach to the questions it has raised has varied over the years Whatever immigrant and integration policies are adopted in a democratic society it is clear that the legislation and the authorities have to ensure that the individual rights of the immigrants residing in its territory are respected With Canada as a point of reference this book draws attention to weaknesses in the regulation and implementation of integration provisions threatening the immigrants' individual rights in the EU member states of Denmark Finland and Sweden The study challenges readers to critically review the meaning of rights and the notion of global caring It takes a critical look at how vulnerable immigrants fare in a largely immigrant nation with a welfare capitalism legacy when compared to three European nations which claim to embrace institutional welfare models This book will be of great interest to scholars and decision makers interested in Scandinavian or Canadian immigration and integration policies

Border Security Peter Chambers, 2017-09-27 What kind of a world is one in which border security is understood as necessary How is this transforming the shores of politics And why does this seem to preclude a horizon of political justice for those affected Border Security responds to these questions through an interdisciplinary exploration of border security politics and justice Drawing empirically on the now notorious case of Australia the book pursues a range of theoretical perspectives including Foucault's

work on power the systems theory of Niklas Luhmann and the cybernetic ethics of Heinz Von Foerster in order to formulate an account of the thoroughly constructed and political nature of border security Through this detailed and critical engagement the book's analysis elicits a political alternative to border security from within its own logic thus signaling at least the beginnings of a way out of the cost cruelty and devaluation of life that characterises the enforced reality of the world of border security

Introduction to Conflict Resolution Sara Cobb, Sarah Federman, Alison Castel, 2019-07-02 The field of conflict resolution has evolved dramatically during the relatively short duration of the discipline's existence Each generation of scholars has struggled with the major puzzles of their era providing theories and solutions that meet the needs of the time only to be pushed forward by new insights and at times totally upended by a changing world This introductory course text explores the genealogy of the field of conflict resolution by examining three different epochs of the field each one tied to the historical context and events of the day In each of these epochs scholars and practitioners worked to understand and address the conflicts that the world was facing at that time This book provides a framework that students will carry with them far into their careers enriching their contributions and strengthening their voices Rather than a didactic approach to the field students will develop their critical analytical skills through an inductive inquiry Students will broaden their vocabulary grapple with argumentation and develop critical reading skills
