Russell Kirk,2023-07-04 As the author of *The Conservative Mind* and other seminal books Russell Kirk is usually thought of as one of the American conservative political movement s most important progenitors But as this collection demonstrates Kirk was perhaps at his best as an essayist This volume also confirms that Kirk s was principally a literary and historical conservatism that refused to fit the irreducible complexity of human experience to the requirements of any ideological straitjacket With *The Essential Russell Kirk* literary critic George A Panichas captures the breadth and depth of Kirk s intellectual project by gathering together forty four of the most masterful of Kirk s essays along with a unique chronology told in Kirk s own words and a substantial introduction that articulates the deep humanism that animated Kirk s philosophy The result is a carefully assembled volume that gives us a fuller picture of an extraordinary man and writer one whose labors had and continue to have remarkable repercussions on the American literary and political landscape **Layman Printer**
