We Understanding The Psychology Of Romantic Love:

The Psychology of Romantic Love Robert A. Johnson,1984 **We** Robert A. Johnson,1985-09-18 Provides an illuminating explanation of the origins and meaning of romantic love and shows how a proper understanding of its psychological dynamics can revitalize our most important relationships **We, Understanding the Psychology of Romantic Love** Robert A. Johnson,1983 Provides an illuminating explanation of the origins and meaning of romantic love and shows how a proper understanding of its psychological dynamics can revitalize our most important relationships **On Romantic Love** Berit Brogaard,2015 Romantic love presents some of life s most challenging questions Can we choose who to love Is romantic love rational Can we love more than one person at a time And can we make ourselves fall out of love In On Romantic Love Berit Brogaard attempts to get to the bottom of love s many contradictions This short book informed by both historical and cutting edge philosophy psychology and neuroscience combines a new theory of romantic love with entertaining anecdotes from real life and accessible explanations of the neuroscience underlying our wildest passions Against the grain Brogaard argues that love is an emotion that it can be at turns both rational and irrational and that it can be manifested in degrees We can love one person more than another and we can love a person a little or a lot or not at all And love isn t even always something we consciously feel However love like other emotions both conscious and not is subject to rational control and falling in or out of it can be a deliberate choice This engaging and innovative look at a universal topic featuring original line drawings by illustrator Gareth Southwell illuminates the processes behind heartbreak obsession jealousy attachment and more **The Romantic and Teleological Nature of the Universe** Christopher Alan Anderson,2012-09-18 What if the teleological purposive nature of the universe was romantic In this article the author discusses this exact issue and its implications on our understanding and experience of love Author Bio Christopher Alan Anderson 1950 received the basis of his education from the University of Science and Philosophy Swannanoa Waynesboro Virginia He resides in the transcendental romantic tradition that vein of spiritual creativity of the philosopher and poet His quest has been to define and express an eternal romantic reality from which a man and a woman could together stand in their difference and create a living universe of procreative love Mr Anderson began these writings in 1971 The first writings were published in 1985 On a personal note when Mr Anderson was asked to describe the writings and what he felt their message was he responded Spiritual procreation Mankind has yet to distinguish the two sexes on the spiritual level In this failure lies the root of our problems and why we cannot yet touch the eternal together The message of man and woman balance brings each of us together in love with our eternal other half right now Keywords Man and Woman Balance Relationships Procreation Spirituality Love Metaphysics Eternal Creation Sexuality Soul [Romantic Love in Cultural Contexts](#) Victor Karandashev,2016-12-24 This volume presents a conceptual historical anthropological and sociological review of how culture affects our experience and expression of romantic love What is romantic love and how is it different

from and similar to other kinds of love How is romantic love related to sex and marriage in human history and across contemporary cultures What cultural factors mediate attraction in love These are some of the questions the volume explores through its interdisciplinary yet focused lens Much of the current research evidence suggests that love is a universal emotion experienced by a majority of people in various historical eras and in all the world's cultures Yet love displays in different ways because culture has an impact on people's conceptions of love and the ways they feel think and behave in romantic relationships This volume summarizes classical knowledge on love and culture while at the same time focusing sharply on recent studies and cutting edge research that has advanced the field Divided into three parts the volume begins by defining and analyzing the concept of romantic love and interdisciplinary approach to its study in cultural context Part II traces the origin and evolution of romantic love both in various places throughout the world and various time periods throughout history Part III presents the revolutionary expansion of romantic love ideas and practices in the late 20th and early 21st centuries in various parts of the world focusing particularly on the development of romantic love as a cultural ideal of the modern cultures Finally the book concludes by summarizing the major achievements in this field of study and predicts future development A timely and thoughtful addition to the literature Romantic Love in Cultural Contexts delivers thought provoking insights to researchers in relationship scholarship sociology anthropology and cultural studies and all those interested in the universal human concept of love Overall I find Dr Victor Karandashev is an excellent and fine scholar who has a firm grasp of both the fundamental principles of cross cultural research and of anthropology In our increasingly connected world Romantic Love in Cultural Contexts updates and adds to the descriptions and explanations of similarities and differences in romantic love across generations and cultures Romantic love encompasses the life span rather than being a phenomenon largely confined to youthful years The topic of this project concerns the deepest of our sentiments and pervades life from birth to death This book contributes to better knowledge of this phenomenon across generations
