Weapons Proliferation In The 1990s :

Weapons Proliferation in the 1990s Brad Roberts,1995 The proliferation of weapons of mass destruction has emerged as a major topic of international security in the post Cold War world This compendium of articles published in The Washington Quarterly between 1991 and 1995 describes the changing nature of the problem discusses new trends in nonproliferation and counterproliferation policy identifies new arms control challenges at the regional and global levels and concludes by addressing the global politics of proliferation *How Nuclear Weapons Spread* Frank Barnaby,2012-10-12 In *How Nuclear Weapons Spread* Frank Barnaby examines the far reaching effects both beneficial and detrimental of nuclear weapons He looks in detail at the nuclear programmes of Third World countries including India Israel and Pakistan which have or could very rapidly acquire nuclear weapons and assesses the nuclear capabilities of countries such as Iran Iraq and North Korea He also considers the alarming possibility that terrorists might obtain nuclear weapons and considers methods of controlling their spread *Weapons Proliferation and World Order* Brad Roberts,2023-09-29 With the end of the Cold War the subject of weapons proliferation has acquired new interest and prominence So too have questions about the nature of the world order that will succeed the structure of the last fifty years This study explores the connections among these topics It describes the prevailing conceptual model of nuclear proliferation evaluates proliferation s changing technical features considers economic and political factors bearing on its future rate and character and speculates about proliferation s implications on the post cold war world order It also considers the role of international public policy in meeting proliferation s challenges Arguing that updated approaches are needed the analysis emphasizes cooperative over coercive approaches to order It concludes with an assessment of progress to date in meeting these new challenges arguing that the new agenda is only slowly coming into focus Treating Weapons Proliferation D. Santoro,2010-03-01 *Treating Weapons Proliferation* is a chilling exploration of the dynamics of weapons proliferation and nonproliferation In an analogy with the disease of cancer the book walks the reader through the history of the phenomenon with its growing complexities and changing dimensions Arms Trade and Nonproliferation: September 21, 1990 and April 23, 1991 United States. Congress. Joint Economic Committee. Subcommittee on Technology and National Security,1992 *U.S. Arms Control and Disarmament Agency 1990 and 1991 Annual Reports* United States. Arms Control and Disarmament Agency,1993 *Historical Dictionary of Arms Control and Disarmament* Jeffrey A. Larsen,James M. Smith,2005-03-25 *Historical Dictionary of Arms Control and Disarmament* provides a historical review of key themes and issues in international security and arms control focusing on efforts in the 20th century to control the spread and use of armaments and to prevent war This book summarizes the rich and proud traditions of arms control and disarmament their critical role in ensuring a non catastrophic course throughout history especially the dangerous period of the Cold War and their continuing relevance and role in the emerging post Cold War world It also seeks to reinforce a broad perspective of key terms in order to capture the scope and range of their application

yesterday today and tomorrow Given this combined tradition and focus this Dictionary serves two purposes As a historical dictionary it chronicles key terms personalities events and agreements as a ready reference from which to launch a more extensive investigation But it also seeks to capture the breadth of current and future applications by presenting the vocabulary of traditional and non traditional approaches The book includes a large dictionary of more than 1 000 key terms as well as a comprehensive bibliography divided into multiple categories an extensive chronology and a timeline This book can also serve as a useful desk reference for the policy practitioner The pace and intensity of the practice of arms control often eliminates the luxury of conventional study of past or related arms control efforts The dictionary seeks to provide a relevant sampling of treaty and agreement details and of the specific terms of reference of arms control to allow productive progress in a policy work environment Researchers and students will also find the dictionary to be a useful reference tool Much of the formal literature in the field such as treaty texts and policy pronouncements is written in technical language without elaboration Also many references to agreements are posed in shorthand intended only for the policy practitioner

Daalder,1991-06-18 Examines the value of deploying strategic missile defences to counter the threat of nuclear accidents It concludes that the deployment of strategic defences in the 1990s will not be strategically desirable technically feasible or economically affordable **The Politics of Ballistic Missile Nonproliferation** W. Bowen,2000-01-20 During the presidency of George Bush 1989-93 the proliferation of nuclear chemical and biological weapons and the ballistic missiles capable of delivering them rose greatly in significance as issues on the American security agenda In the missile field this became evident by the efforts of certain elements in the executive branch and several congressmen to improve domestic and international implementation of the Missile Technology Control Regime The Politics of Ballistic Missile Nonproliferation examines the political bureaucratic and systemic issues that interacted to determine the outcome of these efforts

(In)Security and the Production of International Relations Jonas Hagmann,2014-11-27 This book provides a framework for analysing the interplay between securitisation and foreign affairs reconnecting critical security studies with traditional IR concerns about interstate relations What happens to foreign policymaking when actors things or processes are presented as threats This book explains state behaviour on the basis of a reflexive framework of insecurity politics and argues that governments act on the knowledge of international danger available in their societies but that such knowledge is organised by markedly varying ideas of who threatens whom and how The book develops this argument and illustrates it by means of various European case studies Moving across European history and space these case studies show how securitisation has projected evolving and often contested local ideas of the organisation of international insecurity and how such knowledges of world politics have then conditioned foreign policymaking on their own terms With its focus on insecurity politics the book provides new perspectives for the study of international security Moving the discipline from systemic theorising to a theory of international systematisation it shows how world politics is in practice often conceived in a different way than that assumed by IR theory By the same token by depicting national insecurity as a matter of political construction the book also raises the challenging question of whether certain projections of insecurity may be considered more warranted than others This book will be of much interest to students of critical security studies European politics foreign policy and IR in general *Drugs in the 1990's* United States. Congress. House. Committee on Government Operations. Information, Justice, Transportation, and Agriculture Subcommittee,1995 **Arms Control in the 21st Century** Oliver Meier,Christopher Daase,2013-05-02 This

volume evaluates the impact of coercive arms control efforts to curb the spread of weapons of mass destruction in the twenty first century A new paradigm in arms control is gradually replacing the idea that mutually agreed restrictions on armaments can improve international security Thus Hedley Bull s classic definition of arms control as the cooperation between antagonistic pairs of states in military affairs needs to be amended by a new notion of coercive arms control as the set of non cooperative and non reciprocal measures to restrict the weapons or military capabilities of certain states This volume addresses the topic of how this ongoing paradigmatic shift will affect the effectiveness of arms control as a conflict management instrument While some argue that new instruments can complement and strengthen traditional multilateral and inclusive arms control regimes others maintain that conflicts and contradictions between coercive and cooperative arms control regimes will severely limit their effectiveness This volume provides a forum for academics and practitioners from around the globe to discuss these developments in depth and to assess the specific strengths and weaknesses of these new instruments of arms control This book will be of much interest to students of arms control global governance foreign policy and IR Security Studies in general
