Nash, Andy Williams, 2010-09-27 Public protection has become an increasingly central theme in the work of the criminal justice agencies in many parts of the world in recent years. Its high public profile and consequent political sensitivity means that growing numbers of criminal justice professionals find their daily work load dominated by the assessment and management of high risk of harm offenders. Developments such as sex offender registers and in the UK Multi Agency Public Protection Arrangements (MAPPA) have made this issue not only a core activity for police, probation and prison services but to a range of other organizations as well, in particular social work and the health services. Partnership has become central to the concept of public protection. At the same time the concept of public protection has occasioned increased political debate. Protecting the public from high risk or dangerous offenders has become an international issue and has increasingly shaped criminal justice policy. This text brings together leading authorities in the field providing authoritative coverage of the theory and practice of public protection both in the UK and internationally. It provides a critical review of contemporary public protection practice as well as up to date research and thinking in the field.

The Postmodern Significance of Max Weber's Legacy: Disenchanting Disenchantment B. Koshul, 2005-03-01 One of Max Weber's contemporaries described him as a child of the Enlightenment born too late whose work is a vitriolic attack on religion. Subsequent Weber scholarship has largely affirmed this valuation of Weber and characterized his scholarship as a manifestation of the very disenchantment that Weber describes. In *The Postmodern Significance of Max Weber's Legacy* Basit Koshul challenges this idea by showing Weber to be a postmodern thinker far ahead of his time.
