Music from Another World Robin Talley,2020-03-31 A master of award winning queer historical fiction New York Times bestselling author Robin Talley brings to life an emotionally captivating story about the lives of two teen girls living in an age when just being yourself was an incredible act of bravery It s summer 1977 and closeted lesbian Tammy Larson can t be herself anywhere Not at her strict Christian high school not at her conservative Orange County church and certainly not at home where her ultrareligious aunt relentlessly organizes antigay political campaigns Tammy s only outlet is writing secret letters in her diary to gay civil rights activist Harvey Milk until she s matched with a real life pen pal who changes everything Sharon Hawkins bonds with Tammy over punk music and carefully shared secrets and soon their letters become the one place she can be honest The rest of her life in San Francisco is full of lies The kind she tells for others like helping her gay brother hide the truth from their mom and the kind she tells herself But as antigay fervor in America reaches a frightening new pitch Sharon and Tammy must rely on their long distance friendship to discover their deeply personal truths what they ll stand for and who they ll rise against

Hospital City, Health Care Nation Guian A. McKee,2023-03-07 Hospital City Health Care Nation recasts the story of the U S health care system by emphasizing its economic social and medical importance in American communities Focusing on urban hospitals and academic medical centers the book argues that the country s high level of health care spending has allowed such institutions to become vital if often problematic economic anchors for communities Yet that spending has also constrained possibilities for comprehensive health care reform over many decades even after the passage of the Affordable Care Act in 2010 At the same time the role of hospitals in urban renewal in community health provision and as employers of low wage workers has contributed directly to racial health disparities Guian A McKee explores these issues through a detailed historical case study of Baltimore s Johns Hopkins Hospital while also tracing their connections across governmental scales local state and federal He shows that health care spending and its consequences rather than insurance coverage alone are core issues in the decades long struggle over the American health care system In particular Hospital City Health Care Nation points to the increased role of financial capital after the 1960s in shaping not only hospital growth but also the underlying character of these vital institutions The book shows how hospitals quest for capital has interacted with

structural racism and inequality to shape and constrain the U S health care system Building on this reassessment of the hospital system its politics and its financing Hospital City Health Care Nation offers ideas for the next steps in health care reform

The Business of Black Power Laura Warren Hill,Julia Rabig,2012 Explores business development in the Black power era and the centrality of economic goals to the larger black freedom movement The Business of Black Power emphasizes the centrality of economic goals to the larger black freedom movement and explores the myriad forms of business development in the Black power era This volume charts a new course forBlack power studies and business history exploring both the business ventures that Black power fostered and the impact of Black power on the nation s business world Black activists pressed business leaders corporations and various levels of government into supporting a range of economic development ventures from Black entrepreneurship to grassroots experiments in economic self determination to indigenous attempts to rebuild inner city markets in thewake of disinvestment They pioneered new economic and development strategies often in concert with corporate executives and public officials Yet these same actors also engaged in fierce debates over the role of business in strengthening the movement and some African Americans outright rejected capitalism or collaboration with business The ten scholars in this collection bring fresh analysis to this complex intersection of African American and business history to reveal how Black power advocates or those purporting a Black power agenda engaged business to advance their economic political and social goals They show the business of Black power taking place in thestreets boardrooms journals and periodicals corporations courts and housing projects of America In short few were left untouched by the influence of this movement Laura Warren Hill is assistant professor of history at Bloomfield College Julia Rabig is a lecturer at Dartmouth College
