Welcome

Hello! Welcome to Kindergarten!! I am so excited to be your child's teacher this year. This school year will be filled with FUN, LOADS of discovery, LOTS of learning, and new adventures! There are many "firsts" that happen in Kindergarten, and I am thrilled to be a part of them. I am looking forward to partnering with you this school year and instilling a LOVE for learning in your child. I have recorded (with my voice) a fun story for your child to watch and listen to on this QR code: (You can use your phone camera to access it.)

Ready for What? M. Elizabeth Graue,1993-01-01 This book looks at readiness from a different perspective arguing that we must move away from the readiness as child characteristic so prevalent in education and the popular press Instead readiness is explained as an idea constructed by parents teachers and children as they interact in their neighborhoods and communities Graue describes three communities in the same school district a middle class suburban town of professionals a rural working class community and a group of Hispanic working class families making their way through their children s kindergarten experiences In each setting the local meaning of readiness is the underlying theme in the actions taken by parents and their attitudes about their children s first public school experience Reaching Out Diane W. Kyle, Ellen McIntyre, Karen B. Miller, Gayle H. Moore, 2002-07-19 The timing for Reaching Out could not have been better Just when educators are beginning to realize that teachers need training in how to work with parents Kyle McIntyre Miller and Moore bring us a book that is a welcome breath of fresh air Patricia A Edwards Professor of Language and Literacy Michigan State University Reaching Out describes a great variety of ways to respectfully and productively engage families in helping their children learn and grow Throughout the text the reader is reminded that parents are experts about their children and that trusting relationships are built on respectful two way communications The authors also remind us that the goal of family involvement is not parent participation at school events and activities but improved student achievement Steve McCafferty Principal Mildred Dean School Newport KY Involve families in the education process and enhance your students learning experience Too often today s student feels alienated from school and learning suffers as a result Developing a relationship with the family can provide the missing link in the educational chain Reaching Out is an invaluable resource for

compassionate educators interested in building strong relationships with their students families A dynamic team of teachers and teacher educators have combined their first hand experience and in depth research in this essential guidebook By involving the entire family in the educational experience teachers can bridge the gap separating home and school and help produce happier healthier and smarter kids Highlights include Building trust with families Communicating in positive ways with students families Implementing family workshops Involving families through innovative homework ideas Based on a five year study the information will be particularly helpful for teachers whose classrooms reflect a diverse student population By incorporating these concepts and techniques you not only enhance the learning experience you also help your students to be more compassionate and excited about school
