Welcome Homicide Rick Stanton:

Welcome to Homicide Rick Stanton, 2015-12-01 Rick Stanton spent eleven years and five months assigned as a homicide detective with the Tampa Police Department These are some of the cases that occurred while he was a member of the best ten man homicide squad in the United States in my humble opinion It all started when he was leaving work as a burglary detective on a Friday evening and a few hours later when contemplating going to bed he received a phone call at home and the sergeant saying Welcome to Homicide we have a shooting

The Myth of the Out of Character Crime Stanton E. Samenow, 2007-10-30 From time to time into the news burst accounts of regular people who commit crimes that seem totally out of character according to those who know them well Lee Malvo one of the D C snipers was known to his friends and family as a smart promising man Steven was a talented young scientist with no criminal record No one suspected he was capable of injuring another until he was arrested for abducting a man handcuffing him and threatening to blow off his head with a pistol What makes these otherwise stable and respected men and women commit crimes Why do those who know them best not see the signs Are there clues people can look out for when a person is about to snap What in the psychological makeup of defendants resulted in their committing crimes Here a seasoned forensic psychologist delves into the psyches of these otherwise normal people whom he has treated and researched for many years With first hand experience interviewing and treating such offenders Samenow is able to offer numerous case examples of everyday people committing extraordinary crimes He reveals the significant clues that help to unmask these criminals and the seemingly mundane aspects of their daily lives The way a person handles money consumption of alcohol sexual history marital conflicts job history and performance interests and hobbies reading preferences ambitions and goals and reactions to frustrations all contribute to the factors leading up to the criminal act By probing into these and other aspects of the offenders lives the author finds a context for the crimes they commit He concludes that the out of character crime does not exist that the crime is merely the outer manifestation of what lies beneath the surface By taking readers through the steps necessary to understand these criminals the author shows how we can all read the signs before it is too late He uses real life examples in every chapter to illustrate his points and readers will come away with a better understanding of how these criminals operate
