Wrestling With Tar Baby Wrestling With Tar Baby:

We Travelled David Hare, 2021-08-03 David Hare's great quality has always been his refusal to accept the division between fact and imagination. His creative invention is fired by public realities and in turn he makes those realities feel deeply personal. That same quality is wonderfully at work in his essays and poems. Whether he is writing about Tony Blair or Joan Didion, whether he is writing out of love or rage, evoking the intimate moments of his own life or the great moral questions of our times, he brings his subjects to life with an irresistible immediacy. All the wit, combativeness, energy and edge he has brought to the stage are present here on the page. Fintan O'Toole: I can't remember if I had any plans for the twenty-first century. I was already 52 when it arrived. But events raced off in such unexpected directions that any possible ideas must have gone out the window. Many of us shared the sensation that history was speeding up. Recording dizzying changes in culture and politics, these elegant essays range in subject from the photographer Lee Miller to the Archbishop of Canterbury, from the actress Sarah Bernhardt to the rapist Jimmy Saville, from a celebration of *Mad Men* to a diagnosis of the incoherence of Conservatism in the new century. The poems in contrast are private, tender meditations filled with love, memory, vulnerability and the melancholy of ageing. This is a powerful compilation of prose and poetry by one of the distinctive thinkers of our time.

The Great American Railroad War Dennis Drabelle, 2012-08-21 How two of America's greatest authors took on the Central Railroad monopoly. The notorious Central Pacific Railroad riveted the attention of two great American writers, Ambrose Bierce and Frank Norris. In *The Great American Railroad War*, Dennis Drabelle tells a classic story of corporate greed vs the power of the pen. The Central Pacific Railroad accepted US Government loans, but when the loans fell due, the last surviving founder of the railroad avoided repayment. Bierce, at the behest of his boss William Randolph Hearst, swung into action, writing over sixty stinging articles that became a signal achievement in American journalism. Later, Norris focused the first volume of his trilogy *The Octopus* on the freight cars of a thinly disguised version of the Central Pacific. *The Great American Railroad War* is a lively chapter of US history, pitting two of America's greatest writers against one of America's most powerful corporations. Readers with interests in western American history or the origins of today's political quagmires will find much to relish. Publishers Weekly.

Makers Cory Doctorow, 2009-10-27 Perry and Lester invent things: seashell robots that make toast, Boogie Woogie Elmo dolls that drive cars. They also invent entirely new economic systems. When Kodak and Duracell are broken up for parts by sharp venture capitalists, Perry and Lester help to invent the New Work, a New Deal for the technological era. Barefoot bankers cross the nation microinvesting in high-tech communal mini-startups. Together they transform the nation, and blogger Andrea Fleeks is there to document it. Then it slides into collapse. The New Work bust puts the dot-bomb to shame. Perry and Lester build a network of interactive rides in abandoned Walmarts across the land. As their rides gain in popularity, a rogue Disney executive engineers a savage attack on the rides by convincing the police that their 3D printers are being used to make AK-47s. Lawsuits multiply as venture

capitalists take on a new investment strategy backing litigation against companies like Disney Lester and Perry's friendship falls to pieces when Lester gets the fatkins treatment which turns him into a sybaritic gigolo Then things get really interesting At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied
