

NAMEPLATE AND WARNING LABEL LOCATIONS

Before attempting to operate this truck, carefully read and understand the operating procedures.

Make sure the truck is in proper operating condition. Be sure all safety devices such as the overhead guard and the load backrest extension are in place and properly secured.

Familiarize yourself with the information contained on the nameplate which is located on the engine hood to the right of the operator's seat. Information on the nameplate shown in Figure 1-1 is as follows:

1. **Serial Number**—This is an identification number assigned to this particular truck and should be used when ordering service parts or when requesting any information from your Yale Industrial truck dealer.

The serial number is a six digit number preceded by a letter and is stamped on the truck frame and on the nameplate.

2. **Model Code**—An explanation of the model code is located on the second page of this manual.

3. **Truck Weight**—This is the approximate weight of the truck without a load on the forks. This weight plus the weight of the load to be moved must be considered when operating on elevated floors, elevators, etc.

4. **Capacity Rating**—This rating shows the maximum load capacity of this truck with relation to load centers and fork heights (see diagram on nameplate). Personal injury and damage to the truck can occur if the capacity rating is exceeded.

NOTE: Safety and informational labels are located in conspicuous locations on this truck and should be strictly adhered to. These safety and informational labels must be replaced immediately if missing or defaced. Labels will vary with type of truck and equipment installed. Refer to Parts Manual for part number and location of all labels. See Figure 1-1 and Figure 1-2 for the location and description of the warning labels used on these lift trucks.

NOTE: Throughout this manual the terms right, left, front and rear relate to the viewpoint of an operator seated in the truck.

1. This truck meets all applicable mandatory requirements of ANSI B56.1 Safety Standard for Powered Industrial Trucks at the time of manufacture. In addition, these trucks are classified by Underwriters' Laboratories, Inc. and/or approved by Factory Mutual Engineering Corporation for the type designation shown on the nameplate. Consult UL Index of Classified Products and FM Approval Guide.

2. No additions, omissions or modifications should be made that will affect compliance to the requirements or in any way minimize the effectiveness of the safety devices.
