Yam In West Africa Food Money And More:

Yam in West Africa Felix I. Nweke, 2016 Yam in West Africa examines a crop that has been sidelined and ignored for too long while being central to the existence of so many and consumed worldwide Though the crop can attract high prices too often its producers live in penury Nweke investigates problems of labor technology and agronomy in the West African yam industry in hopes of bettering the future of the yam and those who produce and eat it **Yams** Anthony Keith

Thompson, Ibok Oduro, 2021-09-20 Dioscorea species commonly known as yams are tuberous plants that constitute a major staple food in many parts of Africa South East Asia Latin America and the South Pacific Yams are cultivated in about 50 mainly tropical countries and the world annual production of edible tubers is around 73 million tonnes This book evaluates the current state of knowledge about yams and how this knowledge affects practices in production cultivation and postharvest technology Dioscorea is a diverse genus in terms of its geographical origin domestication morphology chemistry and breeding Therefore besides concentrating on the dozen or so species that are used as major food crops the book examines species that have limited commercial or domestic value at present but have the potential in future to contribute to the production and utilization of this crop **Poetry in General** Keegan Cook Finberg, 2025-11-04 In the second half of the

twentieth century poetry leapt out of books and became an interdisciplinary public form Poetry entered bureaucratic systems of organization like index card catalogues it pushed the boundaries of privately owned public parks Keegan Cook Finberg argues that poetry became an increasingly capacious force during this period because it could speak directly to the degradation of the social democratic notion of the public Poetry in General explores how poets expanded their practice into the realms of politics work and everyday life from 1960 to the present from the apex of the welfare state to an era of privatization and austerity It considers a compelling array of figures including Yoko Ono George Brecht Frank O Hara Amiri Baraka Bernadette Mayer Eleanor Antin Adrian Piper and M NourbeSe Philip whose works draw on conceptual techniques to transform official documents and spaces Finberg shows how these public texts expose the mechanisms of the neoliberal consensus about work and leisure the state's facilitation of capitalism and enduring racial and gender inequities She also provides politically charged ways to interpret and critique racial capitalism antiabortion legislation and mass debt A new literary and institutional history of postwar poetics this book shows how poetic experiments address the privatization of collective life and rethink the category of the public Root, Tuber and Banana Food System Innovations Graham

Thiele, Michael Friedmann, Hugo Campos, Vivian Polar, Jeffery W. Bentley, 2022-04-06 This open access book describes recent innovations in food systems based on root tuber and banana crops in developing countries These innovations respond to many of the challenges facing these vital crops linked to their vegetative seed and bulky and perishable produce The innovations create value food jobs and new sources of income while improving the wellbeing and quality of life of their users Women are often key players in the production processing and marketing of roots tubers and bananas so successful

innovation needs to consider gender These crops and their value chains have long been neglected by research and development hence this book contributes to filling in the gap The book features many outcomes of the CGIAR Research Program in Roots Tubers and Banana RTB which operated from 2012-21 encompassing many tropical countries academic and industry partners multiple crops and major initiatives It describes the successful innovation model developed by RTB that brings together diverse partners and organizations to create value for the end users and to generate positive economic and social outcomes RTB has accelerated the scaling of innovations to reach many end users cost effectively Though most of the book's examples and insights are from Africa they can be applied worldwide The book will be useful for decision makers designing policies to scale up agricultural solutions for researchers and extension specialists seeking practical ideas and for scholars of innovation

Transitioning to Zero Hunger Delwendé Innocent Kiba, 2023-12-14 In 2015 the United Nations decided to establish the goal of achieving zero hunger in the world by 2030 through outcome targets such as eliminating hunger and improving access to food ending all forms of malnutrition promoting sustainable and resilient agriculture and maintaining genetic diversity in food production As a result of this decision strategies are under way in different countries around the world in the form of political academic development and non governmental organization projects and programs Five years later these strategies have certainly generated results that need to be documented and analyzed so as to answer the following questions what are the progress and success stories in terms of policies innovations technologies and approaches to reach the zero hunger goal What are the constraints and mitigation strategies Are we really in a phase of transition towards the zero hunger goal What new directions do we need to consider to achieve this goal particularly in the context of COVID 19 pandemic which affects all sectors of development around the world Transitioning to Zero Hunger is part of MDPI's new Open Access book series Transitioning to Sustainability With this series MDPI pursues environmentally and socially relevant research which contributes to efforts toward a sustainable world Transitioning to Sustainability aims to add to the conversation about regional and global sustainable development according to the 17 SDGs The book series is intended to reach beyond disciplinary even academic boundaries
