Revitalizing Health Through Humanities: Foregrounding Unheard Trends L. Santhosh Kumar, Barnashree Khasnobis, Sreedevi Santhosh, 2024-11-28 Health Humanities in contemporary times has enabled exploration of the unexplored chartered terrains in literary paradigms. Scholars in the field of Humanities and Sciences have been engaging with the praxis of applying concepts from both disciplines revising the approach towards Health Care and Humanities. Due to interdisciplinary and multidisciplinary methodologies of reading literary texts they have been reinforcing a paradigm shift from the conventional understanding of narratives in Literature and Health Care. Traditional discursive boundaries between the disciplines of Health and Humanities are collapsing due to a comprehensive and nuanced interpretation of the shared ontological foundation between the two. Humanism Terminologies like Displacement, Dislocation and Disjunction unite Health and Humanities and they also make the unknown known. Health Humanities explores the different multitudes of narration in the literary arena and it represents diverse voices of literature. It also showcases the importance of re-reading a text owing to its autotelic status. The authors who have contributed chapters for this book have meticulously selected diverse texts and contexts embedded in the dynamism of Health Humanities. This book is an impetus for academicians from the field of Humanities and Sciences who desire to venture into new epistemes towards Health Humanities.
