

WEALTH, POWER, AND THE CRISIS OF LAISSEZ FAIRE CAPITALISM

DONALD GIBSON

Wealth Power And The Crisis Of Laissez Faire Capitalism

Mehmet Odekon

Wealth Power And The Crisis Of Laissez Faire Capitalism:

Wealth, Power, and the Crisis of Laissez Faire Capitalism D. Gibson, 2011-07-04 This forcefully argued book offers a provocative picture of the political intellectual and economic forces that have shaped the history of the United States offering an extensive and in depth critique of laissez faire doctrine and a novel reformulation of the work of American System writers Gibson traces America's rise to global supremacy

The Simple Faith of Franklin Delano Roosevelt Christine Wicker, 2017-10-10 In *The Simple Faith of Franklin Delano Roosevelt* religion journalist and author Christine Wicker establishes that faith was at the heart of everything Roosevelt wanted for the American people This powerful book is the first in depth look at how one of America's richest most patrician presidents became a passionate and beloved champion of the downtrodden and took the country with him Those who knew Roosevelt best invariably credited his spiritual faith as the source of his passion for democracy justice and equality Like many Americans of that time his beliefs were simple He believed the God who heard his prayers and answered them expected him to serve others He anchored his faith in biblical stories and teachings During times so hard that the country would have followed him anywhere he summoned the better angels of the American character in ways that have never been surpassed

Race, Social Science and the Crisis of Manhood, 1890-1970 Malinda Elaine Lindquist, 2012-05-31 *Black Social Science and the Crisis of Manhood 1890 1970* describes the young black male crisis why we are largely unfamiliar with the story of the black superman and why this matters to contemporary debates It does so by returning to the work of those original black social scientists to explore the ways in which they understood the challenges of black manhood offered substantive critiques of the nation's race class and gender systems and worked to construct a progression The careful study of their work reveals the centrality of gender to discussions of race and class and also new possibilities for understanding and discussing black men This book offers a look at pioneering black social scientists as well as a history of the changing perceptions ideals and shifting depictions of black and white manhood over nearly a century

The Human Rights Principle of Indivisibility Dorothea Anthony, 2025-09-24 The indivisibility principle holds that all human rights are equally important and should be respected in equal measure This book provides a comprehensive explanation and analysis of indivisibility its meaning's history ideological significance benefits and shortfalls In this way the work brings indivisibility into the realm of critical thought that the principle of universality for example has long occupied The work examines representations of indivisibility across multiple legal and academic sources from the last several decades in which interest in indivisibility and human rights has grown exponentially It lucidly details how indivisibility has been used to legitimise the human rights project and fortify associated social campaigns It illustrates the human rights community's sincere enthusiasm for indivisibility But it also questions the politics behind the renewed promotion of indivisibility and its declared goals The book is structured according to these goals or social functions that indivisibility has come to take on since it was popularised at the World Conference on Human Rights In addressing the

functions of indivisibility the book uncovers fascinating dynamics underpinning the principle and mainstream human rights theory in general It reveals a paradox in which contemporary indivisibility both challenges and supports the traditional human rights catalogue and the social system out of which the principle arose It asks whether persisting social contradictions and divided interests in the post Cold War world might weaken the moral claims to a new undividedness of rights and lead to the conclusion that we should be more realistic about how human rights law and policy have evolved and what they have to offer The book will be of interest to academics researchers and policy makers working in the areas of human rights studies international law political science and the humanities

The SAGE Encyclopedia of World Poverty Mehmet Odekon,2015-06-15 The SAGE Encyclopedia of World Poverty Second Edition addresses the persistence of poverty across the globe while updating and expanding the landmark work Encyclopedia of World Poverty originally published in 2006 prior to the economic calamities of 2008 For instance while continued high rates of income inequality might be unsurprising in developing countries such as Mexico the Organization of Economic Co operation and Development OECD reported in May 2013 even countries with historically low levels of income inequality have experienced significant increases over the past decade including Denmark Sweden and Germany The U N and the World Bank also emphasize the persistent nature of the problem It is not all bad news In March 2013 the Guardian newspaper reported Some of the poorest people in the world are becoming significantly less poor according to a groundbreaking academic study which has taken a new approach to measuring deprivation The report by Oxford University s poverty and human development initiative predicts that countries among the most impoverished in the world could see acute poverty eradicated within 20 years if they continue at present rates On the other hand the U N says environmental threats from climate change could push billions more into extreme poverty in coming decades All of these points lead to the need for a revised updated and expanded edition of the Encyclopedia of World Poverty Key Features 775 evaluated and updated and 175 entirely new entries New Reader s Guide categories Signed articles with cross references Further Readings will be accompanied by pedagogical elements Updated Chronology Resource Guide Glossary and thorough new Index The SAGE Encyclopedia of World Poverty Second Edition is a dependable source for students and researchers who are researching world poverty making it a must have reference for all academic libraries

Command of Commerce BEN A.. BROOKS VAGLE (STEPHEN G.),Stephen G. Brooks,2025-07-04 The conventional wisdom has held that China s economic power is very close to America s and that Washington cannot undertake a broad economic cutoff of China without hurting itself as much or more Command of Commerce shows that the conventional wisdom is wrong America s economic power has been vastly underestimated and China s overestimated Across multiple scenarios the book shows that China s economic losses from a broad cutoff would be far greater than America s A powerful analysis of the true scope of US and Chinese economic power this will reshape our understanding of the most important geopolitical rivalry in the world

New World Order Sean Stone,Richard Grove,Guido Preparata,2016-09-22 A

sweeping overview of world affairs and especially having come across the name of William Yandell Elliott Professor of Politics at Harvard through the first half of the 20th century Sean found that Elliott had created a kindergarten of Anglo American imperialists amongst his students who included Henry Kissinger Zbigniew Brzezinski Samuel P Huntington and McGeorge Bundy Upon further investigation Sean came to understand Elliott s own integral role connecting the modern national security establishment with the British Round Table Movement s design to re incorporate America into the British empire Whether that goal was achieved will be left to the reader to decide However it cannot be denied that W Y Elliott s life and intellectual history serves to demonstrate the interlocking relationship between academia government and big business [A Pipeline Runs Through It](#) Keith Fisher,2022-08-04 Fascinating revelations Max Hastings Sunday Times An immensely valuable guide to a great and terrible industry The Economist The book I have long been waiting for Essential reading Michael Klare Petroleum has always been used by humans as an adhesive by Neanderthals as a waterproofing agent in Noah s Ark and as a weapon during the Crusades Its eventual extraction from the earth in vast quantities transformed light heat and power A Pipeline Runs Through It is a fresh in depth look at the social economic and geopolitical forces involved in our transition to the modern oil age It tells an extraordinary origin story from the pre industrial history of petroleum through to large scale production in the mid nineteenth century and the development of a dominant fully fledged oil industry by the early twentieth century This was always a story of imperialist violence economic exploitation and environmental destruction The near total eradication of the Native Americans of New York Pennsylvania and Ohio has barely been mentioned as a precondition for the emergence of the first oil region in the United States The growth of Royal Dutch Shell involved the genocidal subjugation of people of the Dutch East Indies and the exploitation of oil in the Middle East arose seamlessly out of Britain s prior political and military interventions in the region Finally in an entirely new analysis the book shows how the British navy s increasingly desperate dependence on vulnerable foreign sources of oil may have been a catalytic ingredient in the outbreak of the First World War The rise of oil has shaped the modern world and this is the book to understand it

[Henry George and the Crisis of Inequality](#) Edward O'Donnell,2015-06-09 America s remarkable explosion of industrial output and national wealth at the end of the nineteenth century was matched by a troubling rise in poverty and worker unrest As politicians and intellectuals fought over the causes of this crisis Henry George 1839 1897 published a radical critique of laissez faire capitalism and its threat to the nation s republican traditions Progress and Poverty 1879 which became a surprise best seller offered a provocative solution for preserving these traditions while preventing the amassing of wealth in the hands of the few a single tax on land values George s writings and years of social activism almost won him the mayor s seat in New York City in 1886 Though he lost the election his ideas proved instrumental to shaping a popular progressivism that remains essential to tackling inequality today Edward T O Donnell s exploration of George s life and times merges labor ethnic intellectual and political history to illuminate the early militant labor movement in New York during the

Gilded Age He locates in George's rise to prominence the beginning of a larger effort by American workers to regain control of the workplace and obtain economic security and opportunity The Gilded Age was the first but by no means the last era in which Americans confronted the mixed outcomes of modern capitalism George's accessible forward thinking ideas on democracy equality and freedom have tremendous value for contemporary debates over the future of unions corporate power Wall Street recklessness government regulation and political polarization

Major Reward and Recognition Events
Lukasz Swiatek, 2023-08-24 Using a range of interdisciplinary ideas *Major Reward and Recognition Events Transformations and Critical Perspectives* is an expert led informative volume exploring the global growth of major award shows and prize giving ceremonies since the start of the twentieth century and outlining their key multimodal components core functions and transformations over time Given the growth of these events and therefore the increase in complex resources and specialist workers required to assemble and promote them this book discusses concerns relating to such events including those pertaining to social justice and representation environmental impacts wellbeing commercialisation and materialistic excess Embellished with illustrative tables and images throughout the book covers a plethora of award shows and ceremonies evaluating their collective future in an increasingly politically unstable post Covid 19 world dealing with growing global environmental change This significant book is an invaluable resource for academics and researchers of critical event studies communication and media studies as well as related social science disciplines The book will also be of interest to enthusiasts and organisers of major recognition and reward events

Amazon Benedetta Brevini, Lukasz Swiatek, 2020-11-26 Taking a political economy of media approach this book examines Amazon as a significant actor in the global media landscape Amazon is mainly conceived in the popular consciousness and media commentary as a corporate body selling products and services to individual consumers and organisations but Brevini and Swiatek show that Amazon has become a communication giant that trades in diversified media its own and others and exerts a significant influence on global communication especially through its online services Further the authors provide evidence of Amazon's multiple influences on politics economics and culture With its comprehensive and critical overview this book is ideal for students scholars and researchers of media and communication studies and political economy

Global Poverty, 2022-11-21 Much ink has been spilled on poverty measurements and trends at the expense of revealing causality Assembling multi disciplinary and international contributions this book shows that a causal understanding of poverty in rich and poor countries is essential That understanding must be based on a critical interrogation of the wider social relations which set up the mechanisms producing poverty as an outcome Processes that widen strengthen crisis ridden market relations that increase income wealth inequality and that enhance the policy biases of nation states and international institutions toward the affluent propertied strata cause global poverty and undermine poor people's political power The processes concentrating wealth creation are poverty causing processes Through theoretical and empirical analyses this volume offers important insights and political prescriptions to address global poverty

The Causes of Structural Unemployment Thomas Janoski, David Luke, Christopher Oliver, 2014-06-27 There is a specter haunting advanced industrial countries structural unemployment Recent years have seen growing concern over declining jobs and though corporate profits have picked up after the Great Recession of 2008 jobs have not It is possible that jobless recoveries could become a permanent feature of Western economies This illuminating book focuses on the employment futures of advanced industrial countries providing readers with the sociological imagination to appreciate the bigger picture of where workers fit in the new international division of labor The authors piece together a puzzle that reveals deep structural forces underlying unemployment skills mismatches caused by a shift from manufacturing to service jobs increased offshoring in search of lower wages the rise of advanced communication and automated technologies and the growing financialization of the global economy that aggravates all of these factors Weaving together varied literatures and data the authors also consider what actions and policy initiatives societies might take to alleviate these threats Addressing a problem that should be front and center for political economists and policymakers this book will be illuminating reading for students of the sociology of work labor studies inequality and economic sociology

Capitalist Dictatorship Milan Zafirovski, 2021-04-26 Milan Zafirovski identifies and investigates the resurgence of capitalist dictatorship in contemporary society especially after 2016 This book introduces the concept of capitalist dictatorship to the academic audience for the first time It examines the capitalist dictatorship as a total social system composed of specific systems such as a coercive economy repressive polity illiberal civil society and irrational culture in contrast to liberal democracy It also investigates multiple dimensions forms and indicators of capitalist dictatorship and calculates degrees of capitalist dictatorship for contemporary Western and comparable societies such as OECD countries Capitalist dictatorship including autocracy Zafirovski argues is the gravest threat to contemporary democratic society post 2016

Collingwood and the Crisis of Western Civilisation Richard Murphy, 2012-02-23 This book argues that R G Collingwood's philosophy is best understood as a diagnosis of and response to a crisis of Western civilisation The various and complementary aspects of the crisis of civilisation are explored and Collingwood is demonstrated to be working in the traditions of Romanticism and historicism On these subjects the theories of Collingwood and Ortega y Gasset are contrasted with those of Nietzsche and Weber

Political Constructions Carol Kay, 2019-05-15 Focussing on three major eighteenth century English novelists Carol Kay explores the connections between institutional politics political philosophy and fiction Drawing from Hobbes's Leviathan a political problematic a complex of interconnected topics Kay offers an alternative to current critical theories that overlook the importance of political institutions in literary analysis She considers Hobbes's though a key to what has been called the growth of political stability in England during this period a

consolidation of national authority which was brutal in some respects and a matter of intense controversy Political Constructions shows how the fictional creations of Defoe Richardson and Sterne challenge but ultimately support Hobbes's diagnosis of a fundamental human ignorance and competition which require the political solution of consent to authority Although they testified to the potential for social conflict Kay concludes the works of novelists and philosophers helped make England the prototype of the settled state the country that did not have a modern revolution

Microeconomic Principles and Problems Geoffrey Schneider, 2019-05-29 Microeconomic Principles and Problems offers a comprehensive introduction to all major perspectives in modern economics including mainstream and heterodox approaches Through providing multiple views of markets and how they work it will leave readers better able to understand and analyse the complex behaviours of consumers firms and government officials as well as the likely impact of a variety of economic events and policies Most principles of microeconomics textbooks cover only mainstream economics ignoring rich heterodox ideas They also lack material on the great economists including the important ideas of Adam Smith Karl Marx Thorstein Veblen John Maynard Keynes and Friedrich Hayek Mainstream books neglect the kind of historical analysis that is crucial to understanding trends that help us predict the future Moreover they focus on abstract models more than existing economic realities This engaging book addresses these inadequacies Including explicit coverage of the major heterodox schools of thought it allows the reader to choose which ideas they find most compelling in explaining modern economic realities Written in an engaging style focused on real world examples this ground breaking book brings economics to life It offers the most contemporary and complete package for any pluralistic microeconomics class

Discourse Analysis and Austerity Kate Power, Tanweer Ali, Eva Lebedušková, 2019-03-04 In the immediate aftermath of the global financial crisis of 2008 governments around the developed world coordinated policy moves to stimulate economic activity and avert a depression In subsequent years however cuts to public expenditure or austerity have become the dominant narrative in public debate on economic policy This unique collaboration between economists and linguists examines manifestations of the discourses of austerity as these have played out in media policy and academic settings across Europe and the Americas Adopting a critical perspective it seeks to elucidate the discursive and argumentation strategies used to consolidate austerity as the dominant economic policy narrative of the twenty first century

The Power of Scale: A Global History Approach John Bodley, 2015-06-01 Throughout history the natural human inclination to accumulate social power has led to growth and scale increases that benefit the few at the expense of the many John Bodley looks at global history through the lens of power and scale theory and draws on history economics anthropology and sociology to demonstrate how individuals have been the agents of social change not social classes Filled with tables and data to support his argument this book considers how increases in scale necessarily lead to an increasingly small elite gaining disproportionate power making democratic control more difficult to achieve and maintain

The Evolution of Economic Ideas and Systems Geoffrey Schneider, 2025-11-25 In order to fully

understand the evolution and future growth of economic systems we must draw on the lessons of economic history. Historical analysis is crucial to understanding trends and patterns that can help us predict the future. *The Evolution of Economic Ideas and Systems* continues to present a groundbreaking pluralist introduction to economic history and the history of economic thought. Tracing the development of economic systems and economic thought, the text introduces students to the story from ancient times to contemporary capitalism and also its critics. Focusing in particular on Smith, Marx, Veblen, and Keynes, the text encourages students to consider which ideas and systems are still relevant in the modern world. This second edition includes brand new chapters on the role of government in modern micro and macroeconomic systems, inequality, climate change, and environmental regulations, economic growth and globalization, as well as a concluding chapter exploring modern themes in economic systems. There is also additional material on non-Western economic systems and the views of economists and anthropologists on economic behavior. A comprehensive package of supplementary teaching resources is also available for instructors. *The Evolution of Economic Ideas and Systems* remains an ideal standalone text for relevant classes or as a supplement to standard texts.

Thank you unconditionally much for downloading **Wealth Power And The Crisis Of Laissez Faire Capitalism**. Maybe you have knowledge that, people have look numerous times for their favorite books similar to this Wealth Power And The Crisis Of Laissez Faire Capitalism, but stop going on in harmful downloads.

Rather than enjoying a good ebook once a cup of coffee in the afternoon, instead they juggled in the same way as some harmful virus inside their computer. **Wealth Power And The Crisis Of Laissez Faire Capitalism** is simple in our digital library an online permission to it is set as public in view of that you can download it instantly. Our digital library saves in multipart countries, allowing you to acquire the most less latency era to download any of our books subsequently this one. Merely said, the Wealth Power And The Crisis Of Laissez Faire Capitalism is universally compatible subsequent to any devices to read.
