Weapons Of The Weak Everyday Forms Of Peasant Resistance:

Weapons of the Weak James C. Scott, 2008-10-01 *Weapons of the Weak* is an ethnography by James C. Scott that studies the effects of the Green Revolution in rural Malaysia. One of the main objectives of the study is to make an argument that the Marxian and Gramscian ideas of false consciousness and hegemony are incorrect. He develops this conclusion throughout the book through the different scenarios and characters that come up during his time of fieldwork in the village. This publication based on 2 years of fieldwork 1978-1980 focuses on the local class relations in a small rice farming community of 70 households in the main paddy growing area of Kedah in Malaysia. Introduction of the Green Revolution in 1976 eliminated 2/3 of the wage earning opportunities for smallholders and landless laborers. The main ensuing class struggle is analyzed being the ideological struggle in the village and the practice of resistance itself consisting of foot dragging, dissimulation, desertion, false compliance, pilfering, feigned ignorance and sabotage acts. Rich and poor are engaged in an unremitting if silent struggle to define changes in land tenure, mechanization and employment to advance their own interests and to use values that they share to control the distribution of status, land, work and grain. *Everyday Forms of Peasant Resistance in South-East Asia* James C. Scott, Benedict J. Kerkvliet, 1986. First Published in 1987. Routledge is an imprint of Taylor & Francis, an information company. Everyday Forms of Peasant Resistance Forrest D. Colburn, 2016-07-22. Peasant rebellions are uncommon. *Everyday Forms of Peasant Resistance* explores peasants' foot dragging, feigned ignorance, false compliance, manipulation, flight, slander, theft, arson, sabotage and similar prosaic forms of struggle. These kinds of resistance stop well short of collective defiance, a strategy usually suicidal for the subordinate. The central argument about peasant resistance is presented in the opening chapter by James Scott in which he summarizes and extends the thesis of his book on Malaysia's peasantry. *Weapons of the Weak* Scott's ideas are employed and refined in the ensuing seven country studies of peasant resistance: Poland, India, Egypt, Colombia, China, Nicaragua and Zimbabwe. Korea Briefing Kong Dan Oh, Ralph C. Hassig, 2002. This new edition of *Korea Briefing* provides a timely analysis of the evolving relationship between South and North Korea. In June 2000, after years of ignoring the South Korean government, the North Korean leader Kim Jong Il finally agreed to a summit meeting with South Korea's President Kim Dae Jung. As a sign of reconciliation, the summit meeting has prompted Korea and its neighbors to rethink the assumptions of the Cold War era. With contributions by a multi-national panel of Korean experts, the book discusses a wide range of topics including South Korean politics and economy, Korea's relations with its neighbors and with the United States, recent changes in North Korea, the fate of North Korean defectors and lessons in German reunification for the two Koreas. The discussions are supplemented by a glossary, a chronology of events occurring from June 1999 to June 2001 and a bibliography. , **Anthropology and Politics** Joan Vincent, 2022-08-16. In considering how anthropologists have chosen to look at and write about politics, Joan Vincent contends that the anthropological study of politics is itself a historical process. Intended not only as a representation but also as a reinterpretation, her study arises from questioning

accepted views and unexamined assumptions This wide ranging cross disciplinary work is a critical review of the anthropological study of politics in the English speaking world from 1879 to the present a counterpoint of text and context that describes for each of three eras both what anthropologists have said about politics and the national and international events that have shaped their interests and concerns It is also an account of how intellectual social and political conditions influenced the discipline by conditioning both anthropological inquiry and the avenues of research supported by universities and governments Finally it is a study of the politics of anthropology itself examining the survival of theses or schools of thought and the influence of certain individuals and departments

Backyard Revolution Péter Apor, 2025-03-15 Backyard Revolution contributes in depth sociocultural histories of the popular antisemitic pogroms that shook Hungary in the spring and summer of 1946 Expanding the scope of investigation of serial mass violence toward Jewish communities beyond the cases in Poland suggests that antisemitic violence was general in postwar Central and Eastern Europe and that it spoke to central components of popular notions of society and politics Péter Apor gives new impetus to rethink the explanations of collective violence including antisemitic ones He considers collective violence as a particular form of political participation and examines post Holocaust antisemitic violence as one of its perverse ways Drawing on previously unknown archival sources Backyard Revolution explores how collective violence produced categories and divisions in society and how these in turn attempted to shape the institutions of the state It further addresses the political participation of powerless groups and highlights components of everyday life and resistance that engendered power structures and hierarchies These important theoretical premises concerning the subaltern politics provide a new template for understanding the emergence of communist dictatorships in Central and Eastern Europe Setting the genesis of communist dictatorships at the crossroads of popular expectations toward the state anchored to the culture of the everyday and elites attempts to mobilize mass support Backyard Revolution has implications beyond regional borders and adds to the understanding of growing populist governance worldwide

Steel Barrio Michael Innis-Jiménez, 2013-06-17 Since the early twentieth century thousands of Mexican Americans have lived worked and formed communities in Chicago's steel mill neighborhoods Drawing on individual stories and oral histories Michael Innis-Jiménez tells the story of a vibrant active community that continues to play a central role in American politics and society Examining how the fortunes of Mexicans in South Chicago were linked to the

environment they helped to build Steel Barrio offers new insights into how and why Mexican Americans created community This book investigates the years between the World Wars the period that witnessed the first massive influx of Mexicans into Chicago South Chicago Mexicans lived in a neighborhood whose literal and figurative boundaries were defined by steel mills which dominated economic life for Mexican immigrants Yet while the mills provided jobs for Mexican men they were neither the center of community life nor the source of collective identity Steel Barrio argues that the Mexican immigrant and Mexican American men and women who came to South Chicago created physical and imagined community not only to defend against the ever present social political and economic harassment and discrimination but to grow in a foreign polluted environment Steel Barrio reconstructs the everyday strategies the working class Mexican American community adopted to survive in areas from labor to sports to activism This book links a particular community in South Chicago to broader issues in twentieth century U S history including race and labor urban immigration and the segregation of cities **The Political**

Aims of Jesus Douglas E. Oakman, 2012 Amid competing portrayals of the cynic Jesus the peasant Jesus and the apocalyptic Jesus the political Jesus remains a marginal figure Douglas E Oakman argues that advances in our social scientific understanding of the political economy of Roman Galilee as well as advances in the so called Third Quest for the historical Jesus warrant a revival and a critical revision of H S Reimarus's understanding of Jesus as an instigator of revolutionary change Everyday Life Matters Cynthia Robin, 2013-10-29 While the study of ancient civilizations has often focused on holy temples and royal tombs a substantial part of the archaeological record remains hidden in the understudied day to day lives of artisans farmers hunters and other ordinary people of the ancient world The various chores of a person's daily life can be quite extraordinary and even though they may seem trivial such activities can have a powerful effect on society as a whole Everyday Life Matters develops general methods and theories for studying everyday life applicable in archaeology anthropology and a wide range of disciplines In this groundbreaking work Cynthia Robin examines the 2 000 year history 800 B C A D 1200 of the ancient farming community of Chan in Belize explaining why the average person should matter to archaeologists studying larger societal patterns Robin argues that the impact of what is commonly perceived as habitual or quotidian can be substantial and a study of a polity without regard to the citizenry is woefully incomplete She also develops general methods and theories for studying everyday life applicable across a wide range of disciplines Refocusing attention from the Maya elite and offering critical analysis of daily life interwoven with larger anthropological theories Robin engages us to consider the larger implications of the seemingly mundane and to rethink the constitution of human societies everyday life and ordinary people *Peasants without the Party* Lucien Bianco, 2015-03-04 Exploring one of the most dynamic and contested regions of the world this series includes works on political economic cultural and social changes in modern and contemporary Asia and the Pacific The leading specialist on China's twentieth century peasant resistance reexamines in bold and original ways the question Was the Chinese peasantry a revolutionary force Where most scholarly attention has focused

on Communist led peasant movements Bianco's story is one of peasant thought and action largely unmediated by modern political parties This volume pays particular attention to the first half of the twentieth century when peasant based conflict ranging from tax and food protests to secret society conflicts opium struggles inter communal conflicts and tenant protests over rent was central to nationwide revolutionary processes Unstately Power Lynn T. White, III, 2017-09-04 A critique of America's flawed Asia policy that centres on US Japan relations but harkens back to the same disastrous views that drew America into Vietnam The technique is a narrative flow of short vignettes woven into longer chapters the main strands are personal reflections and interviews **Culture and Global Change** Tim Allen, Tracey Skelton, 2005-06-27 Culture and Global Change presents a comprehensive introduction to the cultural aspects of third world development It contains 25 chapters from leading writers in the field who each explore a particular aspect of culture and the significance and meaning of cultural issues for different people in throughout the contemporary world With chapters dealing with the importance of Third World cultures but also with changes in Russia Japan the USA and the UK this book considers the relationship between culture and development within a truly global context **Locating Capitalism in Time and Space** David Nugent, 2002 The last several decades have witnessed major restructurings economic political and cultural in the international arena The depth and scope of these changes have prompted anthropologists to rethink many of their most basic assumptions to problematize issues that have long gone unexamined and to grapple with new and unique problems Doing so has left the discipline profoundly unsettled Existing standards of scholarship and research methodologies have come under attack key conceptual categories have been called into question and truths once considered secure have been subjected to severe scrutiny and even ridicule Seizing upon the opportunity afforded by the contemporary conjuncture of disciplinary crisis and redefinition this book raises questions about two interrelated aspects of historical process and academic production The volume contributes to ongoing debates about the degree to which the developments of recent decades represent the advent of a new historical era a rupture with the past that requires new conceptualizations and logics in order to be understood In confronting this question the contributors to this volume have assembled a range of materials that place the present period of reconstruction in the context of a broader history and geography of other related restructurings Locating Capitalism in Time and Space also raises questions about the degree to which the scholarship of recent decades represents a qualitative break with that of the past At issue here is whether one understands the history of academic production as a linear process of intellectual growth punctuated by major breakthroughs in understanding or as a political process structured by the same kinds of inequalities and struggles that characterize the social worlds that are the object of anthropological analysis Last Days of the Mighty Mekong Brian Eyler, 2019-02-15 Celebrated for its natural beauty and its abundance of wildlife the Mekong river runs thousands of miles through China Myanmar Laos Thailand Cambodia and Vietnam Its basin is home to more than 70 million people and has for centuries been one of the world's richest agricultural areas and a biodynamic wonder Today however it is

undergoing profound changes Development policies led by a rising China in particular aim to interconnect the region and urbanize the inhabitants And a series of dams will harness the river s energy while also stymieing its natural cycles and cutting off food supplies for swathes of the population In Last Days of the Mighty Mekong Brian Eyler travels from the river s headwaters in China to its delta in southern Vietnam to explore its modern evolution Along the way he meets the region s diverse peoples from villagers to community leaders politicians to policy makers Through conversations with them he reveals the urgent struggle to save the Mekong and its unique ecosystem

Gossip and the Everyday Production of Politics Niko Besnier, 2009-07-08 Although gossip is disapproved of across the world s societies it is a prominent feature of sociality whose role in the construction of society and culture cannot be overestimated In particular gossip is central to the enactment of politics through it people transform difference into inequality and enact or challenge power structures Based on the author s intimate ethnographic knowledge of Nukulaelae Atoll Tuvalu this work uses an analysis of gossip as political action to develop a holistic understanding of a number of disparate themes including conflict power agency morality emotion locality belief and gender It brings together two methodological traditions the microscopic analysis of unelicited interaction and the macroscopic interpretation of social practice that are rarely wedded successfully Drawing on a broad range of theoretical resources Niko Besnier approaches gossip from several angles A detailed analysis of how Nukulaelae s people structure their gossip interactions demonstrates that this structure reflects and contributes to the atoll s political ideology which wavers between a staunch egalitarianism and a need for hierarchy His discussion then turns to narratives of specific events in which gossip played an important role in either enacting egalitarianism or reinforcing inequality Embedding gossip in a broad range of communicative practices enables Besnier to develop a nuanced analysis of how gossip operates demonstrating how it allows some to gain power while others suffer because of it Throughout he is particularly attentive to the ways in which anthropologists themselves are the subject and object of gossip making his work a notable contribution to reflexive social science Written in an engaging and accessible style Gossip and the Everyday Production of Politics will appeal to students and scholars of political legal linguistic and psychological anthropology social science methodology communication conflict gender and globalization studies and Pacific Islands studies

Shehata, 2009-10-05 In Shop Floor Culture and Politics in Egypt Samer S Shehata provides us with a unique and detailed ethnographic portrait of life within two large textile factories in Alexandria Egypt Working for nearly a year as a winding machine operator provided Shehata with unprecedented access to workers at the point of production and the activities of the work hall He argues that the social organization of production in the factories including company rules and procedures hierarchy and relations of authority and shop floor culture profoundly shape what it means to be a worker and how this identity is understood Shehata reveals how economic relations inside the factory are simultaneously relations of significance and meaning and how the production of wool and cotton textiles is at the same time the production of categories of identity

patterns of human interaction and understandings of the self and others **Christians and Missionaries in India** Robert Eric Frykenberg, 2013-01-11 The assumption that Christianity in India is nothing more than a European western or colonial imposition is open to challenge Those who now think and write about India are often not aware that Christianity is a non western religion that in India this has always been so and that there are now more Christians in Africa and Asia than in the West Recognizing that more understanding of the separate histories and cultures of the many Christian communities in India will be needed before a truly comprehensive history of Christianity in India can be written this volume addresses particular aspects of cultural contact with special reference to caste conversion and colonialism Subjects addressed range from Sanskrit grammar to populist Pentecostalism Urdu polemics and Tamil poetry **Civilian Strategy in Civil War S.** Barter, 2016-01-12 While typically the victims of war civilians are not necessarily passive recipients of violence What options are available to civilians in times of war This book suggests three broad strategies flight support and voice It focuses on three conflicts Aceh Indonesia Patani southern Thailand and Mindanao southern Philippines
