***Forging Latin America*** Russell Crandall, 2023-08-29 A sweeping yet intimate exploration of Latin America's political history. *Forging Latin America* profiles fifty-two of the region's most influential figures who, for better or worse, have shaped its character and destiny from the Spanish Conquest to the present day. This polyphonic gathering of dictators, reformers, revolutionaries, artists, writers, priests, and activists not only foregrounds the major political developments since 1492 but also spotlights lesser-known stories of hope, change, and resistance from the ground up. Along the way, the book shows how ideas can bring down a government or build one, how power corrodes ideology until the perpetuation of power becomes an ideology in and of itself, and how the intellectual heritage of Latin America has been used, disputed, and reinvented over five astonishing centuries.

***Fighting Unemployment in Twentieth-Century Chile*** Ángela Vergara, 2021-04-13 In *Fighting Unemployment in Twentieth Century Chile*, Ángela Vergara narrates the story of how industrial and mine workers, peasants, and day laborers, as well as blue collar and white collar employees, earned a living through periods of economic, political, and social instability in twentieth-century Chile. The Great Depression transformed how Chileans viewed work and welfare rights and how they related to public institutions. Influenced by global and regional debates, the state put modern agencies in place to count and assist the poor and expand their social and economic rights. Weaving together bottom-up and transnational approaches, Vergara underscores the limits of these policies and demonstrates how the benefits and protections of wage labor became central to people's lives and culture and how global economic recessions, political oppression, and abusive employers threatened their working class culture. *Fighting Unemployment in Twentieth Century Chile* contributes to understanding the profound inequality that permeates Chilean history through a detailed analysis of the relationship between welfare professionals and the unemployed, the interpretation of labor laws, and employers' everyday attitudes.
