Peripheral Visions for Writing Centers Jackie Grutsch McKinney, 2013-04-15 Peripheral Visions for Writing Centers aims to inspire a re conception and re envisioning of the boundaries of writing center work Moving beyond the grand narrative of the writing center that it is a solely comfortable yet iconoclastic place where all students go to get one on one tutoring on their writing Grutsch McKinney shines light on other representations of writing center work Grutsch McKinney argues that this grand narrative neglects the extent to which writing center work is theoretically and pedagogically complex with ever changing work and conditions and results in a straitjacket for writing center scholars practitioners students and outsiders alike Peripheral Visions for Writing Centers makes the case for a broader narrative of writing center work that recognizes and theorizes the various spaces of writing center labor allows for professionalization of administrators and sees tutoring as just one way to perform writing center work Grutsch McKinney

explores possibilities that lie outside the grand narrative allowing scholars and practitioners to open the field to a fuller richer and more realistic representation of their material labor and intellectual work Ability Profiling and School Failure Kathleen M. Collins, Kathleen M Collins, 2014-04-04 Exploring the social and contextual forces that shape the appearance of academic ability and disability this work shows how these forces influence the perception of academic underachievement by minority students American Book Publishing Record ,2003 *Kindergarten Magazine and Pedagogical Digest* Bertha Johnston, E. Weaving Narrative Nets to Capture Classrooms D. Geelan, 2007-09-29 If you're the kind of reader who usually skips the Preface I am sure you can certainly do that It's probably valuable though for me to spend a little time describing the structure of this book to orient you to the way the argument unfolds My intention was to try to find the best possible blend of theory and practice I believe there are plenty of excellent books describing the theoretical underpinnings of qualitative research in education Denzin Eisner 1998 Guba Lincoln Harold 2000 Wolcott 1973 There are fewer books that focus on describing in detail how to conduct these studies Anderson Kerr Van Manen 1990 Wolcott 1990 for an audience that is not already familiar with both the methods and the philosophical commitments that underpin qualitative research This book is intended to do all of these things to some extent or to refer you to other authors who I think do them well but its original contribution is in using as a concrete example a particular research study that I completed This allows me to reflect on the processes and practices and particularly the choices involved in qualitative classroom research and to illustrate those reflections in a very practical way
