Television Brandcasting Jennifer Gillan, 2014-11-20 Television Brandcasting examines U.S. television's utility as a medium for branded storytelling. It investigates the current and historical role that television content promotion and hybrids of the two have played in disseminating brand messaging and influencing consumer decision making. Juxtaposing the current period of transition with that of the 1950s and 1960s, Jennifer Gillan outlines how in each era new technologies unsettled entrenched business models, an emergent viewing platform threatened to undermine an established one, and content providers worried over the behavior of once dependable audiences. The anxieties led to storytelling, promotion, and advertising experiments including the Disneyland series, embedded rock music videos in Ozzie and Harriet's credit sequence, brand integration, Modern Family's parent company promotion, episodes, second screen initiatives, and social TV experiments. Offering contemporary and classic examples from the American Broadcasting Company, Disney Channel, ABC Family, and Showtime alongside series such as *Bewitched*, *Leave It to Beaver*, *Laverne Shirley*, and *Pretty Little Liars*, individual chapters focus on brandcasting at the level of the television series, network schedule, Blu-ray/DVD, Digital combo pack, the promotional short, the cause marketing campaign, and across social media. In this follow-up to her successful previous book *Television and New Media*, Must Click TV, Gillan provides vital insights into television's role in the expansion of a brand-centric U.S. culture

Their Own Best Creations Annie Berke, 2022-01-04 A rich account that combines media industry history and cultural studies, *Their Own Best Creations* looks at women writers' contributions to some of the most popular genres of postwar TV: comedy, variety, family sitcom, daytime soap, and suspense anthology. During the 1950s, when the commercial medium of television was still being defined, women writers navigated pressures at work, constructed public personas that reconciled traditional and progressive femininity, and asserted that a woman's point of view was essential to television as an art form. The shows they authored allegorize these professional and personal pressures and articulate a nascent second-wave feminist consciousness. Annie Berke brings to light the long forgotten and under-studied stories of these women writers and crucially places them in the historical and contemporary record
