tools but far more competition not only from other authors on the sales front but also from services that entice us to spend ever more money before we publish This book is my ultimate guide to what you need what you can try and what is likely to be a waste of your money and time Over more than 500 pages I talk about the unvarnished experience of self publishing and selling books while keeping control of my catalogue and not funding anyone s private jet in advertising costs I wrote this book to pay it forward to the community I don t sell courses I don t do affiliate marketing I have no vested interest in anyone s self publishing journey Except for this I want you to enjoy it eBooks for Elementary School Terence W.
