Hoheliedauslegung Anselm C. Hagedorn, 2012-02-13 The collection of essays contains nineteen contributions that aim at locating the Song of Songs in its ancient context as well as addressing problems of interpretation and the reception of this biblical book in later literature In contrast to previous studies this work devotes considerable attention to parallels from the Greek world without neglecting the Ancient Near East or Egypt Several contributions deal with the use of the Song in Byzantine Medieval German Romantic and modern Greek Literature Due to the interdisciplinary nature of the collection new perspectives and avenues of approach are opened

The Lost Language of Symbolism Harold Bayley, 2000 An Inquiry into the Origin of Certain Letters Words Names Fairy Tales Folklore and Mythologies Bayley spent years gathering knowledge of symbols and emblems from many different areas He has a scholarly command over mythology folklore religious texts and fairy tales from around the world that shows clearly how and why important symbols were used Stories are often cross referenced showing how other diverse cultures from around the world had similar tales A gold mine for any serious researcher reveals knowledge that would otherwise have remained lost or misunderstood

The Wedding Song of Wisdom Echoes from the Gnosis Volume XI G. R. S. Mead, 2015-11-25 The Hymn which forms the subject of this little volume has no traditional title Like The Hymn of the Robe of Glory which formed the last of these Echoes it is found in the Syriac Acts of Judas Thomas where it is put in the mouth of the Apostle who is said on his travels to have been guest of honour at a bridal feast In addition to the Syriac we have a Greek text which is plainly a translation The Greek is in prose but the Syriac for the most part in verses of twelve syllables in couplets just like The Hymn of the Robe of Glory As Macke tells us p 17 where the Greek and Syriac agree the verses are of six syllables or more correctly as Burkitt has pointed out p 277 normally 6 6 but sometimes 5 7 Moreover the Greek can be translated back into metred Syriac where the present Syriac departs from the metre An Armenian version also existed of which unfortunately we now possess only the opening and closing lines All scholars agree that the original Hymn was composed in Syriac but is our Syriac text as it stands the original It plainly is not it has been overworked as the Germans call it by an editor and that too to serve certain theological interests while the scraps of the Armenian version show that it in its turn had been still further over worked
