The Living Diet Martha Tatarnic,2019-04-17 The Living Diet invites us to consider our relationship to food from a Christian perspective Food can t live with it or without it We are bombarded with messages that the secret to health and weight loss can be unlocked with the right product or magic discipline but we are getting neither thinner nor happier Reports suggest that we are losing our battle with obesity while the anxiety people experience in relationship with food increases We are taught that bodies are fundamentally a problem to be solved or worse a war to be won while a misguided worldview suggests that our food choices are of concern to us alone an individual act of pleasure or consequences Few resources speak to our food problem from a distinctly Christian perspective Drawing on a rich assemblage of personal and collected stories grounded in the teachings of Jesus The Living Diet offers a joyful alternative to the desperation and dissatisfaction that have become cultural norms for both eating and body image inviting us to consider our choices in the context of community Ancient wisdom yields a surprisingly modern response to the dieting dilemma as well as to the realm of public or popular theology helping the reader discover the real joy of eating and the true gift of embodied living
