Nelson, 2019-12-10 This volume analyses the societal legacy of Lutheranism in Finland in broad terms It contributes to the recent renewed interest in the history of religion in Finland and the Nordic countries by bringing together researchers in history political science economics social psychology education linguistics media studies and theology to examine the mutual relationship between Lutheranism and society in Finland The two main foci are i the historical effects of the Reformation and its aftermath on societal structures and on national identity values linguistic culture education and the economy and ii the adaptation of the church and its theology to changes in the geo political and sociocultural context Important sub themes include nationalism and religion the secularization and institutionalization of traditional values multiple Protestant ethics and long continuities in history Overall the book argues that large changes in societies cannot be explained via secular factors alone such as economic development or urbanization but that factors pertaining to religion provide substantial explanatory power for understanding societal change and the resulting societal structures *Death, Life and Laughter* Mathew Guest, Martha Middlemiss Lé Mon, 2016-11-25 11 Where does Islamic Studies fit 12 From Jevons to Collini via Douglas Davies reflections on higher education and religious identity 13 A break from prose defying the boundaries of genre 14 An inquisitive presence

thinking with Douglas Davies on the study of religion Epilogue a response Index *Society Shaped by Theology* Robin Gill, 2017-05-15 Over the last thirty years a number of theologians have been using aspects of sociology alongside the more traditional resources of philosophy In turn sociologists with an interest in theology have also contributed to an interaction between theology and sociology The time is right to revisit the dialogue between theologians and sociologists In his new trilogy on Sociological Theology Robin Gill makes a renewed contribution to the mapping of three abiding ways of relating theology and sociology with the three volumes covering Theology in a Social Context Theology Shaped by Society Society Shaped by Theology Society Shaped by Theology explores the possibility that theological concepts may sometimes still be influential in the modern world It follows in the tradition of Max Weber arguing that theological virtues and debates can at times be transposed wittingly or unwittingly into society at large Robin Gill examines the unusual instance of the public debate about Honest to God in the 1960s but then turns to the current debate about faith and social capital adding fresh and unexpected evidence Finally Gill argues that bioethics in the public domain especially on global issues such as AIDS can be enriched and deepened by a judicious use of theological virtues
