Citizenship, Migration and Social Rights

Beate Althammer, 2023-08-25 The tensions between European conceptions of the welfare state and transnational migration have caused heated political public and academic debates over the last decades Historiography however has not yet explored in depth how European societies struggled with this dilemma filled relationship in the formative phases of modern welfare states from the late nineteenth century to the post war era The present volume contributes to filling this gap and thus to putting a highly topical issue into historical perspective The focus is on Europe but with a wide geographic scope that reaches also across the Atlantic Following an introductory chapter eleven case studies deal with four themes The first part explores the agency of migrants in local level administrative and judicial procedures that controlled practical access to formal rights The second section investigates special regulations developed for seasonal labour migrants employed mainly in agriculture The third part looks at the role of urban social policies in attracting integrating but also excluding both domestic and foreign migrants The final section addresses the gradual globalisation of migrants social rights through international conventions The book will be of interest not only to historians of welfare migration and citizenship but also to social scientists as well as to graduate students in these fields

Micro-Management of Irregular Migration

Reinhard Schweitzer, 2022-01-31 This open access book provides an analysis of the functioning consequences and inherent limitations of internalised immigration control By adopting the perspective of irregular residents as well as local service providers the book sheds new light on the intricate mechanisms that either help or hinder the diffusion of immigration control into concrete institutional settings like schools or hospitals A simple and innovative analytical framework enables the systematic comparison of three different spheres of service provision across two distinct local as well as also national contexts This is necessary to understand the complex interplay between formal law and policy the intrinsic rules and logics operating within institutions and the ethical or practical obligations and constraints attached to particular roles and professions Based on empirical findings and rigorous analysis the book argues that internalised control is part of the problem that irregular migration poses for society rather than constituting a potential solution to it

The Transnationalized Social Question Thomas Faist, 2019 The social question is back Yet today s social question is not primarily between labour and capital as it was in the nineteenth century and throughout much of the twentieth The contemporary social question is located at the interstices between the global South and the global North It finds its expression in movements of people seeking a better life or fleeing unsustainable social political economic and ecological conditions It is transnationalized not only because migrants and their significant others entertain ties across the

borders of national states staying in touch with family and friends receiving or sending financial remittances in transnational social spaces Also of importance are cross border recruitment schemes for workers and the cross border diffusion of norms appealed to in the case of migration for example the social right to decent work as a human right Moreover migration can become an issue of inclusion or exclusion in fields important to life chances in the emigration transit or immigration states a transnationalization of national states And as in the nineteenth century political conflicts arise constituting the social question as a public concern In earlier periods class differences dominated conflicts While class has always been criss crossed by manifold heterogeneities not least of all cultural ones around ethnicity religion and language it is these latter heterogeneities that have sharpened in situations of immigration and emigration over the past decades Casting a wide net in terms of conceptual and empirical scope this book tackles both the social structure and the politics of social inequalities It sets a comprehensive agenda for research which also includes the public role of social scientists in dealing with the transnationalized social question
