Ancient Civilizations of the World Denny Rose & Rowan Allen, 2018-05-08 About 5 000 years ago the first urban societies developed laying the foundations for the first civilizations Nearly all civilizations share the same few features they have abundant food surpluses contained cities political bureaucracies armies defined religious and social hierarchies and long distance trading Ancient Egyptian culture flourished between c 5500 BCE with the rise of technology as evidenced in

the glass work of faience and 30 BCE with the death of Cleopatra VII the last Ptolemaic ruler of Egypt It is famous today for the great monuments which celebrated the triumphs of the rulers and honored the gods of the land The culture is often misunderstood as having been obsessed with death but had this been so it is unlikely it would have made the significant impression it did on other ancient cultures such as Greece and Rome Neolithic means a new stone even though agriculture was the crowning achievement of the period Civilizations started out small Agriculture at first tended to tie only small groups together These groups also all settled along rivers important as a reliable and predictable source of water As time passed families usually worked the same plot of land over successive generations leading to the concept of ownership Ancient mortars and grinding tools unearthed in a large mound in the Zagros Mountains of Iran reveal that people were grinding wheat and barley about 11 000 years ago Grass pea wild wheat wild barley and lentils were found throughout the site including some of the earliest known samples This was much further east than most sites known for early agriculture This book furnishes with utmost facility to all classes of readers the needed information on ancient civilization The unusual variety of the subject makes this a work of endless fascination

Western Civilization Margaret L. King, 2000 For introductory courses in Western Civilization This text explains why Western civilization is worth knowing about It takes a consistently topical approach stressing social and cultural themes in conjunction with the political narrative and incorporates significant discussion of peoples and civilizations outside the boundaries of the West Written by a single author it is accompanied by rich visual images textual excerpts boxes timelines charts and maps all closely related to the narrative
