Putin's Wars Marcel H. Van Herpen, 2024-01-03 The third edition of this acclaimed book offers a systematic analysis of Putin s three wars placing the Second Chechen War the war with Georgia of 2008 and the current war with Ukraine in their broader historical context Drawing on extensive original Russian sources Marcel H Van Herpen analyzes in detail how Putin s wars have been prepared and conducted and why they have led to allegations of war crimes and genocide He shows how the conflicts have attempted to consolidate and legitimate Putin s regime and explores how they are connected to a fourth hidden internal war waged by the Kremlin against the opposition The author convincingly argues that the Kremlin relying on the secret services the Orthodox Church the Kremlin youth Nashi and the rehabilitated Cossacks is preparing for an imperial revival most recently in the form of a Eurasian Union An essential book for understanding the dynamics of Putin s regime this study digs deep into the Kremlin s secret long term strategies Readable and clearly argued it makes a compelling case that Putin s regime emulates an established Russian paradigm in which empire building and despotic rule are mutually reinforcing As the first comprehensive exploration of the historical antecedents and political continuity of the Kremlin s contemporary policies Van Herpen s work will make a valuable contribution to the literature on post Soviet Russia and his arguments will stimulate a fascinating and vigorous debate

Understanding Ethnopolitical Conflict E. Souleimanov, 2013-07-08 This book critically evaluates the growing body of theoretical literature on ethnic conflict and civil war using empirical data from three major South Caucasian conflicts

evaluating the relative strengths and weaknesses of the available methodological approaches *International Law and the Reconceptualization of Territorial Boundaries* Joshua Castellino, 2024-10-28 This book critically analyzes the state based regime of international law eliciting its colonial and decolonial origins and proposing a new sub regional basis for dealing with contemporary global challenges Since 1648 public international law has taken many steps to maintain peace and establish a just order The State is deemed central to each of these efforts Yet modern challenges such as environmental mitigation mass migration and the need to stimulate economic growth overwhelm the State Could a regional approach to these questions achieved in conjunction with strong sub national local governance establish a more effective framework for systemic change Drawing on a history of colonization and decolonization while scrutinizing decisions made about the imposition of the State on the basis of colonial boundaries this multidisciplinary work analyses why current challenges are unlikely to be adequately addressed through existing governance structures In response it advocates for a sub regional transnational approach drawing on analyses of pre colonial shared histories and contemporary population ethnographies unfettered by hegemonic boundary drawing The book argues that collaboration across such frontiers in the face of climate and other challenges may offer more feasible approaches to the pursuit of peace than the unquestioned maintenance of state based structures of inherited privilege This book will appeal to scholars and others with interests in international law international relations and international politics as well as in the history and politics of colonialism

The Criminal-Terror Nexus in Chechnya Jeff Meyers, 2017-04-12 The line between criminal and terrorist groups is often blurred and Chechen groups are an excellent example of this new phenomenon As the Soviet Union collapsed groups began to fill the cracks offering services that the state could not The Chechens were one group that outrivaled many groups and they soon became synonymous throughout the Russian Federation with criminal This work looks into the historical social and religious reasons behind the rise of militant Islam in the region From there it will discuss the historical difference between organized crime and terror how the two have coalesced into the crime terror nexus and how the Chechens compare to two other groups that have gone through the same evolution The Sicilian mafia and the militant Islamic Movement of Uzbekistan or IMU Though neither group are exactly the same there are links that can help the reader understand the domestic and foreign problems that twenty first century nation states deal with throughout the world

The Caucasus Under Soviet Rule Alex Marshall, 2010-09-13 The Caucasus is a strategically and economically important region in contemporary global affairs This book provides the first comprehensive study of the impact of Soviet policy on the Caucasus focusing in particular on the period from 1917 to 1955 It argues that understanding the Soviet legacy in the region remains critical to analysing both the new states of the Transcaucasus and the autonomous territories of the North Caucasus

The Colour Revolutions in the Former Soviet Republics Donnacha Ó Beacháin, Abel Polese, 2010-07-12 During the first decade of the 21st century a remarkable phenomenon swept through the former Soviet Union changing the political social and cultural landscape

Popularly known as the Colour Revolutions these non violent protests overthrew autocratic regimes in three post soviet republics the Georgian Rose Revolution 2003 the Ukrainian Orange Revolution 2004 and the Kyrgyzstani Tulip Revolution 2005 This book examines the significance of these regime change processes for the post soviet world in particular and for global politics in the 21st century Engaging comprehensively with the former Soviet republics the contributors to this book ask why there wasn't a revolution in a post Soviet republic such as Russia despite apparently favourable conditions They also explore the circumstances that ensured some post soviet countries underwent a successful colour revolution whilst others did not Identifying the conditions for successful colour revolutions this book asks whether there is a revolutionary blueprint that may be exported to other areas around the world that are under autocratic rule Carefully considering the ideologies of the post Soviet ruling regimes this book demonstrates the manner by which political elites integrated nationalism authoritarianism and populism into public debates It analyzes the diverse anti regime movements discussing the factors that led to the rise of such factions and outlining how these opposition groups were constituted and operated In addition it assesses the impact of external forces including the influence of the USA the EU and Russia By examining the colour revolution phenomenon in its entirety this book marks a significant contribution to both our micro and macro understanding of this tide of transformation

Encyclopedia of Stateless Nations James B. Minahan, 2016-08-01 This book addresses the numerous national movements of ethnic groups around the world seeking independence more self rule or autonomy movements that have proliferated exponentially in the 21st century In the last 15 years globalization religious radicalization economic changes endangered cultures and languages cultural suppression racial tensions and many other factors have stimulated the emergence of autonomy and independence movements in every corner of the world even in areas formerly considered immune to self government demands such as South America Researching the numerous ethnic groups seeking autonomy or independence worldwide previously required referencing many specialized publications This book makes this difficult to find information available in a single volume presented in a simple format accessible to everyone from high school readers to scholars in advanced studies programs The book provides an extensive update to Greenwood's Encyclopedia of the Stateless Nations Ethnic and National Groups around the World that was published more than a decade earlier Each ethnic group receives an alphabetically organized entry containing information such as alternate names population figures flag or flags geography history culture and languages All the information readers need to understand the motivating factors behind each movement and the current situation of each ethnic group is presented in a compact summary Fact boxes at the beginning of each entry enable students to quickly access key information and consistent entry structure makes for easy cross cultural comparisons

Media, Democracy and Freedom Marta Dyczok, Oksana Viktorovna Gaman-Golutvina, 2009 This book does what few other works have done it examines the role media have played in the larger political economic and social transformations in the post communist space An international group of scholars from various disciplines explore the

complex relations between media society and the state in this region over the past twenty years and present theoretical arguments that challenge dominant views They scrutinize changes in the public sphere as well as the media itself its role format agenda and quality in the context of changing values and shifting power relationships
