You Dont Have To Fuck People Over To Survive:

You Don't Have to Fuck People Over to Survive Seth Tobocman, 2009 New York 1989 a decade of activism around the urban housing crisis is coming to a close Legendary graphic artist Seth Tobocman documents it in his bold comic style In a collection of his most enduring images Tobocman covers everything from the imprisonment of Mumia Abu Jamal the rise of Reaganomics the struggle against apartheid and the Miami race riots It is both a candid portrait of a decade of struggle to preserve basic human rights and a critical historical artefact *Anarchism* Benjamin Franks, Nathan Jun, Leonard Williams, 2018-03-14 Anarchism is by far the least broadly understood ideology and the least studied academically Though highly influential both historically and in terms of recent social movements anarchism is regularly dismissed Anarchism A Conceptual Approach is a welcome addition to this growing field which is widely debated but poorly understood Occupying a distinctive position in the study of anarchist ideology this volume authored by a handpicked group of established and rising scholars investigates how anarchists often seek to sharpen their message and struggle to determine what ideas and actions are central to their identity Moving beyond defining anarchism as simply an ideology or political theory this book examines the meanings of its key concepts which have been divided into three categories Core Adjacent and Peripheral concepts Each chapter focuses on one important concept shows how anarchists have understood the concept and highlights its relationships to other concepts Although anarchism is often thought of as a political topic the interdisciplinary nature of Anarchism A Conceptual Approach makes it of interest to students and scholars across the social sciences liberal arts and the humanities

Understanding the Crash Seth Tobocman, Eric Laursen, 2010-05-10 Understanding the Crash starts with a simple question that still haunts us all What has happened to the world economy With the kind of striking precision that only graphic nonfiction can provide Seth Tobocman and Eric Laursen explain just how we got into this mess and how we can get out of it Looking back across more than a quarter century the authors outline the roots of our current economic crisis They show how the troubles of a working class community in Cleveland or a newly built suburb of Miami became an international financial crisis explaining the complex new forms of credit that came into being because of financial deregulation and how they created an economic whirlpool From there they discuss how over the same time span a smaller and smaller group of people came to control a larger and larger percentage of the world's money a result of rising inequality that combined with the shortage of affordable housing a decline in real wages and our unwavering belief in an ownership society impelled poor people into debt Tobocman and Laursen conclude with a consideration of a restructured financial system and a look toward a culture of sustainability one that covets real wealth in the form of security meaningful work and community
