College Classroom Gregory J. Rummo, 2025-01-17 The majority of students on college campuses currently are members of Generation Z. They are the most stressed cohort to ever embark on their journey through higher education, reporting the highest stress levels of any generation in the country according to The American Psychological Association, as well as the highest suicide rate. This is the field white unto harvest into which God has called professors at Christian universities. But are they up to the challenge of reaching their students for Christ? Palm Beach Atlantic University's triperspectival motto, enlightening minds, enriching souls, and extending hands, provided a unique foundation for Gregory J. Rummo to build a program to fulfill these goals and effectively reach students with the gospel. This book details the results of research into how he accomplished this. Through faith integration in the classroom and laboratory, practicing radical hospitality in his school office, and offering missional opportunities through short-term mission trips to the developing world, Rummo has had countless occasions to help students mature in their faith. The methods offered here, although designed to reach students in STEM classes, can provide a template to any professor looking to effectively reach students in any discipline with the gospel.

Queer & Trans Advocacy in the Community College Joshua Moon Johnson, Emilie Mitchell, Lemuel W. Watson, 2022-06-01 LGBTQ advocacy and support continues to be a priority in the U.S. higher education, and recent research shows this as a critical population who continues to be marginalized and mistreated on college and university campuses. Over the last few decades, there has been significant research describing how LGBTQ students experience higher education and highlighting that these students are not graduating or succeeding at the same rates as the general population. However, few if any research studies or articles address LGBTQ advocacy on community college campuses. There are more than 1,000 community colleges in the U.S. Even with the extraordinary number of students that the community college system educates, approximately 15 institutions nationally have paid staff to provide LGBTQ services to students. That being said, community colleges are now putting a larger emphasis on understanding and supporting this community. For example, The California Community College (CCC) system's 116 colleges now require all campuses to create a plan on how to improve success rates of LGBTQ students. The CCC is the largest higher education system in the country, serving over 2 million students. This comprehensive practitioner-focused book will combine relevant research and guidance on practices to aid colleges in establishing services and programs to build effective LGBTQ services on their college campuses.
