## **Your Business Your Retirement Halton Retirement Study:**

Your Business, Your Retirement Brian Weatherdon, CFP, CLU, CPCA, CRC, 2015-09-14 What keeps people stuck in career or business when they're wanting a new life What are the key steps financial and life to open your New Retirement How do you write your own story and step into it so as to preserve wealth and life not just for yourself but also family team members and their families and ongoing value for community Nine key areas of retirement and financial coaching for the professional and business owner to unlock and open up your future

**Pension Ponzi** Bill Tufts, Lee Fairbanks, 2011-01-25 The vast majority of Canadians are blissfully unaware that every man woman and child in Canada now owes a 35 000 share of government debt and must pay this back with interest Make no mistake this debt will change our country and affect every single Canadian in the decades to come You may think you have planned for your retirement and are safe but the government must find a way to recover this borrowed money and they can only do that by raising your taxes and reducing your hard earned benefits How did this debt come about and why can't we simply pay it off Pension Ponzi lays the blame squarely at the feet of the politicians who refused to stand up to Canada's public sector unions The fact is Canada's public sector which accounts for 20% of the workforce has been grossly overpaid relative to their counterparts in the private sector with cushy pensions paid for with your taxes and new debt There is no denying that the country does not have the financial resources to ensure that the next generation of Canadians will have the same standard of living as the ones before it or to support our growing seniors population Meeting our public sector pension obligations will break the current social safety net that is a pillar of the Canadian way Can you escape this bleak future Can you afford to live longer Nationally recognized pension expert Bill Tufts and award winning journalist Lee Fairbanks explore how this catastrophe came about and then suggest ways that government can fix what's broken and how you as an individual can protect yourself from the financial calamity that is about to engulf Canada

Houk JD, 2018-06-21 Explains the most effective ways to discuss the legal and financial responsibilities that come with the end of life and tools for managing them such as wills trusts estate planning and cash management in the context of financial psychology Dying is complicated It presents myriad challenges at a time when people are least prepared to deal with complexity Typically aging people turn to their adult children and grandchildren their caregivers and their professional advisors to guide them in their final years This book is aimed directly at the children and grandchildren of aging parents to prepare them for meaningful conversations with their parents and among themselves It gives them the tools they need to communicate knowledgeably with caregivers and professional advisors and to make important decisions with or on behalf of those who depend on them The authors provide legal and financial tools and techniques including wills and trusts cash management and investment planning approaching each from both a financial and

a psychological perspective They recognize that some of the challenges that people face during their last few years of life cannot be controlled and describe not only what these tools and techniques can do but also what they can't Those that cannot be controlled however can still be managed and the authors explain with clarity and compassion how to deal with them through psychological and spiritual engagement *Princeton Alumni Weekly*, 1957 **Beverage World**, 1985 **Credit**
