Wow! T.J.'s Adventures in the World of Wellness Bonnie K. Nygard, Tammy L. Green, Susan Koonce, 2005 Meet the Challenge of Comprehensive Health Education in Elementary School Human Kinetics recognizes that health education may be challenging to fit into your busy schedule That is why we developed the World of Wellness Health Education series WOW With WOW you can deliver top quality health education within the limited hours of the school day promote health literacy meet the mandates of No Child Left Behind legislation and enhance your efforts to achieve the objectives of the overall curriculum that you work so hard to implement WOW is designed to

develop strong and compelling links between what students should know and what they should be able to do in the areas of reading and writing. Finally but no less importantly, WOW emphasizes the importance of physical activity and nutrition throughout the health education strands. Through careful design and execution, a coordinated approach and consideration for real students and teachers in real school settings, WOW not only helps you meet the challenge but does so in a way that appeals to kids of all ages. Fun, Easy, Complete. The World of Wellness Health Education series enables you to teach your students the importance of leading an active and healthy life through conceptually grounded, context-based lessons. What's even more exciting is that while your students are learning, they'll become acquainted with a very special group of friends who will take them on a wellness journey throughout the school year. Ruby, Cody, T.J., Sydney, and others will help your students learn about health while strengthening their abilities in reading, writing, and other cross-curricular topics. WOW functions as a group of kits without the cost of a kit. Ancillaries other publishers might make you pay extra for are included with the teacher's guides for each level of the WOW series at a very affordable price. Plus, few supplies are needed for delivering the dynamic lessons found in WOW, and the few little things you might need for activities or demonstrations are inexpensive and easily found in a school or discount store. That means that you can deliver WOW content expertly, smoothly, and affordably with very little prep time.

Coordinated School Health Connections Today's child needs an updated, multifaceted approach in order to achieve health literacy or the ability to make choices that will enhance personal health and well-being now and in the future. For many years, the Centers for Disease Control and Prevention (CDC) have promoted the key to children's health and well-being through their Coordinated School Health Model. This model encompasses eight interactive areas: Health education, Physical education, Health services, Nutrition services, Counseling, psychological and social services, Healthy school environment, Health promotion for staff, Family and community involvement. WOW delivers Coordinated School Health. With concern rapidly growing about childhood obesity, inactivity, and other health risks such as type 2 diabetes, states and municipalities are now responding by passing laws requiring coordinated school health. The WOW Health Education series meets these needs by providing the four components that are most frequently required: Health education core content meeting the relevant national standards, Physical education helping students meet the national standards, Parent involvement newsletters provided per unit and per grade level in both English and Spanish, Nutrition education and services for students and parents alike. Professional development opportunities are available through the authors to support each essential component.

This Is How WOW Works Each level of The World of Wellness Health Education series consists of the following: a teacher's guide, a teacher's resource CD-ROM, a student book that corresponds to the students' levels. For kindergarten students, the student book is a big book, a large, colorful book for the teacher to read to the group. First through fifth grade students have their own books. In addition, an abridged first grade student book is available in big book format.

Color Coding Across the series, kindergarten through fifth grade, WOW uses a color-coded system to denote grade levels. This allows you the

additional flexibility of using a lower level to meet the needs of students with academic challenges or a higher level to challenge gifted students In today s world of tight budgets and increasing demands on school resources rest assured that the WOW student books are not intended to be used as workbooks Rather they are meant to last multiple years while still being cost effective This complies with the directives of most school districts not to purchase student consumables **Nutrition**

Ambition: Reaching Your Wellness Goals Dianne Bean,2007 Provides chapter based health wellness concepts followed by fun educational activities for the child and the family All instructional concepts and activities have been specifically designed to help children understand the relationships between food and food groups their bodies exercise and nutrition All content and activities have been specially designed for either parental instruction as well as child self paced instructional funbook The included CD simulation developed by the Duke University Center for Wellness shows children and families the caloire relationship between food intake and the amount of exercise required to burn off that food in a fun video gaming experience from back book cover **Differentiating Instruction with Menus** Laurie E. Westphal,2007 Differentiating Instruction

With Menus offers teachers everything they need to create a student centered learning environment based on choice Addressing the four main subject areas language arts math science and social studies and the major concepts taught within these areas these books provide a number of different types of menus that elementary aged students can use to select exciting products that they will develop so teachers can assess what has been learned instead of using a traditional worksheet format Each book contains attractive reproducible menus each based on the levels of Bloom s revised taxonomy for students to use to guide them in making decisions as to which products they will develop after studying a major concept or unit Using creative and challenging choices found in Tic Tac Toe Menus List Menus 2 5 8 Menus Baseball Menus and Game Show Menus students will look forward to sharing their newfound knowledge throughout the year Also included are specific guidelines for products rubrics for assessing student products and teacher introduction pages for each menu This book includes menus that teach students about physical science earth science and scientists and the tools they use **GED**
