layered by repetition of racism and ostracism can be seen and understood and advocates can step forward Release is possible but only when we as communities create safe and wholesome places where each of us can be respected and valued This book suggests many ways to understand these ideas to practice them and to question our assumptions about what is broken It calls for us to stand for humanity beginning with those we know *Escaping Domestic Abuse* Jane Boucher,2009-03-13 In this revealing book you will meet courageous women who broke away from abusive relationships to escape the agonizing pain and find lasting peace You too will recognize the signs of abuse conquer timidity and helpless dependency develop the strength to start over heal your emotional and physical scars defeat the fear of being alone and enjoy healthy relationships Physical battery is the number one cause of injuries among women more than automobile accidents rapes and muggings combined Are you one of the women who are being abused You can escape the controlling power of your abuser
