Women in Magazines Rachel Ritchie, Sue Hawkins, Nicola Phillips, S. Jay Kleinberg, 2016-02-19 Women have been important contributors to and readers of magazines since the development of the periodical press in the nineteenth century. By the mid-twentieth century, millions of women read the weeklies and monthlies that focused on supposedly feminine concerns of the home, family, and appearance. In the decades that followed, feminist scholars criticized such publications as at best conservative and at worst regressive in their treatment of gender norms and ideals. However, this perspective obscures the heterogeneity of the magazine industry itself and women's experiences of it both as readers and as journalists. This collection explores such diversity, highlighting the differing and at times contradictory images and understandings of women in a range of magazines and women's contributions to magazines in a number of contexts, from late nineteenth-century publications to twenty-first-century titles in Britain, North America, continental Europe, and Australia.

Roughing it in the Suburbs Valerie J. Korinek, 2000-12-15 Originally launched in 1928 by the 1950s and 1960s, nearly two million readers every month sampled Chatelaine magazine's eclectic mixture of traditional and surprisingly unconventional articles and editorials. At a time when the American women's magazine market began to flounder thanks to the advent of television, Chatelaine's subscriptions expanded as did the lively debate between its pages. Why? In this exhilarating study of Canada's foremost women's publication in the 50s and 60s, Valerie Korinek shows that while the magazine was certainly filled with advertisements that promoted domestic perfection through the endless expansion of consumer spending, a number of its sections, including fiction, features, letters, and the editor's column, began to contain material that subversively complicated the simple consumer recipes for affluent domesticity. Articles on abortion, spousal abuse, and poverty proliferated alongside explicitly feminist editorials. It was a potent mixture, and the mail poured in, both praising and criticizing the new directions at the magazine. It was Chatelaine's highly interactive and participatory nature that encouraged what Korinek calls a community of readers: readers that in their

very response to the magazine led to its success Chatelaine did not cling to the stereotypical images of the era instead it forged ahead providing women with a variety of images ideas and critiques of women s role in society Chatelaine s dissemination of feminist ideas laid the foundation for feminism in Canada in the 1970s and after Comprehensive fascinating and full of lively debate and history Roughing it in the Suburbs provides a cultural study that weaves together a history of Chatelaine s producer s consumers and text It illustrates how the structure of the magazine s production and the composition of its editorial and business offices allowed for feminist material to infiltrate a mass market women s monthly In doing so it offers a detailed analysis of the times the issues and the national cross section of the women and sometimes men who participated in the success of a Canadian cultural landmark Winner of the Laura Jamieson Prize awarded by the Canadian Research Institute for the Advancement of Women
