Youth Ministry from the Outside in Brandon McKoy, 2013 Brandon McCoy mines the insights of social construction theory to help us locate Christ not in our hearts but in our midst Approaching youth ministry from the outside in we discover our students in a whole new light and with them the fullness of our faith Back cover **Youth Ministry from the Outside In** Brandon K. McKoy, 2013-09-13 Brandon McKoy mines social construction theory to redirect our youth ministries from a focus on forming and protecting the private faith lives of students to cultivating an awareness of Christ in our midst in the overlapping relationships stories and spheres of life that make us who we are *Youth Ministry in a Multifaith Society* Len Kageler, 2014-04-24 How do we ground our young people in the faith while encouraging their relationships with friends of other faiths Veteran youth minister and researcher Len Kageler digs into the data surrounding this exciting multifaith era and offers surprising confidence that our kids can be guided into mature Christian faith while simultaneously learning to love their neighbors of other religions **Youth Ministry** Malan Nel, 2018-12-01 This book aims at contributing to the scientific and academic discourse as regards to the what and why of youth ministry Too often youth ministry has been approached from a mainly practical point of view almost asking how we keep young people off the streets Its methodology has often not included the theological and theoretical presuppositions that lie behind this ministry Previous scientific reflection has been determined by a one dimensional and almost exclusive point of view In comparison with existing literature this book does not focus so much on the how of youth ministry It innovates a different approach The book challenges the existing exclusive approach and develops an inclusive congregational and missional understanding of and approach to youth ministry From a particular perspective on the understanding the main objectives of Practical Theology the author endorses the so called movement of what is supposed to be going on He adds the outcome of an empirical round table discussion with some 16 leaders in this field on the descriptive and interpretive movements within the subject field what is going on and why is it going on The book will form the standard for any new research with regard to youth ministry The book s contribution lies on the level of sound theological reasoning and argumentation supported by many scholars for an inclusive congregational understanding of ministry as an integral part of every congregation being missional in being and doing Youth children adolescents and emerging adults are just as integral a part of every congregation within which they live and serve

Landscapes, Edges, and Identity-Making Vicki Ross, Elaine Chan, 2019-10-21 In this volume experiences as narrative inquiry are explored in order to make sense of research identities and the response community we have created through this process Researchers bring together thinking and experiences in the current educational landscape to better understand the ways researchers have shaped and been shaped by their work **Resources in Education** ,1998 Navigating Model Minority Stereotypes Rupam Saran, 2015-08-11 Though Asian Indians are typically thought of as a model minority not much is known about the school experiences of their children Positive stereotyping of these immigrants and their children often masks educational needs and issues creates class divides within the Indian American community and triggers stress for many Asian Indian students This volume examines second generation America born and 1.5 generation foreign born Asian Indians as they try to balance peer culture home life and academics It explores how through the acculturation process these children either take advantage of this positive stereotype or refute their stereotyped ethnic image and move to downward mobility Focusing on migrant experiences of the Indian diasporas in the United States this volume brings attention to highly motivated Asian Indian students who are overlooked because of their cultural dispositions and outlooks on schooling and those students who are more likely to underachieve It highlights the assimilation of Asian Indian students in mainstream society and their understandings of Americanization social inequality diversity and multiculturalism **Youth and Violent Performativities** Ben Arnold Lohmeyer, 2020-06-12 This book challenges the dominant narrative of young people being a

uniquely violent group Instead the book critically examines how young people become violent as they enact and resist the available violent performativities in youth It focuses on the experiences of 28 young people in Australia who are subjected to violence who use violence and who resist violence A critical analysis of these young people s messy stories facilitates a reframing of the physical violence routinely attributed to young people as a product of violating systems and structures The author constructs a converging theoretical landscape to re examine youth violence and resistance at the intersection of the sociology of violence and the sociology of youth Drawing on interviews with young Australians the book makes a valuable contribution to contemporary international scholarship on youth and violence while also examining the potential for complicity to violence in youth research and practice In doing so it offers youth scholars and practitioners a framework for reassessing their theoretical frameworks and methods for studying and working with young people in connection with violence
