**Young People and Thinking Technologies for the Anthropocene** Peter Kraftl, Peter Kelly, Diego Carbajo Padilla, Rosalyn Black, Seth Brown, Anoop Nayak, 2022-09-26 This collection which is a companion volume to Young People and Stories for the Anthropocene Kelly et al 2022 aims to find to explore and to co produce ways of staying with the trouble Haraway 2016 that are disruptive of orthodoxies in childhood and youth studies and productive of new ways of thinking and of being and becoming in the circumstances that we young and old find ourselves in Circumstances that have problematically been identified as the Anthropocene and which have been characterised as being situated at the convergence of the climate crisis the 6th mass extinction and the ongoing crises of global capitalism as earth system Braidotti 2019 Moore 2015 The collection emerges in part and among other things around three key challenges First how can childhood and youth studies tell stories about the less obviously bounded obviously crafted obviously engineered material stuff that humans create and that circulates stuff like plastics chemicals and the scattered remnants of past industrial endeavour Second the need to experiment with diverse

modes of representation with differently mediated technologies and modes of telling that from digital film platforms to children's non-fiction writing expand our lexicon in terms of how it might become possible to narrate young people in and the Anthropocene Third the need to articulate different tools for working with young people in the Anthropocene Tools and technologies understood in this manner are modes of becoming attuned to and of making new configurations of human and non-human new and pressing threats that weigh upon young people in visceral affective ways and new modes of speculating about and becoming responsible for futures human and more than human In this sense the contributions to the collection from scholars from the Anglo and non-Anglosphere are framed by an urgency to develop and deploy innovative critical and disruptive theoretical and methodological tools and technologies to identify and explore the material temporal and conceptual challenges for children and young people and those who research in childhood and youth studies at this convergence

**Routledge Handbook of the Sociology of Higher Education** James E. Côté, Sarah Pickard, 2022-03-21 Higher education has come under increasing public scrutiny in recent years assailed with demands for greater efficiency accountability cost reduction and above all job training Drawing upon examples from across the world with an emphasis on Anglo American higher education systems this handbook employs sociological approaches to address these pressing concerns The second edition is thoroughly updated and adds several new chapters to shed further light on the transformations wrought by the interrelated processes of massification vocationalization and marketization that have swept through universities in the wake of neoliberal reforms introduced by governments since the 1980s The handbook explores recent developments in higher education systems and policy as well as the everyday experiences of students and staff and ongoing problems of inequality and diversity within universities In doing so the chapters address a number of current issues concerning the legitimacy of higher educational credentials from the continuing debate regarding traditional pedagogies and the role of universities in social class reproduction to more recent concerns about standards in mass systems Collectively this handbook demonstrates that the sociology of higher education has the potential to play a leadership role in improving the myriad higher education systems around the world that are now part of an interrelated set of subsystems replete with both persistent problems and promising prospects This book is therefore necessary reading for a variety of stakeholders within academia as well as professionals and policy makers interested in understanding higher education and the acute challenges it faces

**Youth Development in Identity Societies** James E. Cote, 2018-10-31 This book explores the causes and consequences of the contradictions in young people's lives stemming from the affluence purpose paradox a lack of purpose in life among many of those living in the most affluent societies in human history This paradox is endemic to identity societies where people experience a choice contingent life course and is examined using an interdisciplinary approach largely with an integration of developmental psychology and sociology but also using historical anthropological economic and political perspectives The transition to adulthood is now commonly a prolonged process with young people facing a number of psychological challenges and sociological obstacles in their identity formation Challenges include difficulties in making prudent choices about goals Obstacles involve cross pressures in the wider society as well as in educational institutions Consequently many youth experience their education as alienating and stressful rather than as an opportunity for personal development Those without a sense of purpose have more difficulties with their identity formation that can produce symptoms of anxiety and depression The current student mental health crisis is examined in this context An additional challenge is an ambiguously defined adulthood Young people who are confused about appropriate adult roles often

value hedonistic activities rooted in narcissism and materialism rather than in more fulfilling long term goals Conversely those who are agentic in their personal development can thrive in adulthood especially when they combine agency with generativity This book ends with a series of recommendations for researchers and policy makers to help youth cope with the affluence purpose paradox      *Education Policy, Digital Disruption and the Future of Work* Shane B. Duggan, 2019-11-09 This book examines the possibilities practices and consequences of digital disruption and networked economies in education policy As traditional notions of learning and labour are abstracted by networked technologies young people are exposed to new forms of governance and intervention Tracing key education policy shifts from the turn of the millennium to the present day this book explores notions of value aspiration and equity in the context of the rise of the networked economies and the end of work It argues that a policy focus on preparing young people for the future a future that will be dominated by networked technologies informs both what counts as success and reorganises young people s orientation in the present in new commodified forms In an era where the costs of higher education are rapidly increasing despite their relative decline in value this book will resonate with scholars in youth and educational studies as well as those with an interest in emerging forms of labour and work      The Youth Tourist Anna Irimiás, 2023-03-23 Anna Irimi s provides an informed overview on the characteristics of youth tourists with a focus on tourism consumption Youth tourists pre trip on stay and post trip tourism behaviours are studied in light of the current trends Challenges and implications are critically analysed      **Youth and Unconventional Political Engagement** Ilaria Pitti, 2018-03-30 This book analyses the relationship between youth and participation looking specifically at those repertoires of involvement that are commonly clustered under the concept of unconventional political participation The author focuses on the connections between youth practices of participation and youth conditions in contemporary society Drawing from the analysis of three ethnographic case studies conducted on experiences of youth participation in Italy and Sweden the circumstances and the reasons leading young people to express their political ideas through forms of engagement located outside the realm of formal politics are explored The book seeks to bring back the specificities of contemporary youth at the centre of the analysis of youth practices of participation highlighting their often overlooked socio historical and generational situatedness Youth and Unconventional Political Engagement will be of interest students and scholars across a range of disciplines including youth studies political science and sociology      Criminalizing Motherhood and Reproduction Michelle Hughes Miller, 2024-02-08 In this book motherhood and reproduction are identified as sites of legal political and ideological surveillance regulation and criminalization Collectively this rich and diverse edited volume builds on cross disciplinary frameworks and an attention to differences among mothers to analyze multiple ways that mothers and pregnant women face culture policy or practices that may criminalize their identities or their actions Several themes cross the volumes six chapters from the importance of and problems related to socialized expectations of what good mothers should do for incarcerated formerly incarcerated and never

incarcerated mothers alike to the role of state actors and everyday informal interactions in enforcing these expectations particularly against marginalized Black Brown and young mothers in open air prisons Conflicts between motherhood ideologies and state control dominate many women under carceral motherhood Nation states are also implicated in these analyses particularly in the European Union where nation states outsource abortion across and within geopolitical borders making migration a contested strategy for pregnant women Yet despite the criminalizing of motherhood and reproduction described in the text women and mothers are also found to be resilient choosing their identities and their actions Criminalizing Motherhood and Reproduction will be a key resource for researchers scholars and practitioners in the fields of feminist criminology and motherhood studies criminology and criminal justice women s studies gender studies child and youth studies and sociology It was originally published as a special issue of Women Criminal Justice      **Routledge Handbook of Youth and Young Adulthood** Andy Furlong, 2016-10-14 The second and completely revised edition of the Routledge Handbook of Youth and Young Adulthood draws on the work of leading academics from four continents in order to introduce up to date perspectives on a wide range of issues that affect and shape youth and young adulthood It provides a multi disciplinary overview of a dynamic field of study that offers unique insights on social change in advanced societies It is aimed at researchers policy makers and advanced students on a global level The Handbook introduces the main theoretical perspectives used within youth studies and sets out future research agendas Each of the ten sections covers an important area of research from education and the labour market to youth cultures health and crime discussing change and continuity in the lives of young people introducing readers to some of the most important work in the field while highlighting the underlying perspectives that have been used to understand the complexity of modern youth and young adulthood      *How Global Youth Values Will Change Our Future* Gayle Kimball, 2019-01-15 How Global Youth Values Will Change Our Future reveals the values and religious beliefs of Generations Y and Z representing over 4 000 young people from 88 countries This book is based on their own voices rather than adult projections from multiple choice surveys It also includes futurists projections of significant trends to predict where society is headed As the largest best educated and most connected generation ever today s youth are creating a more democratic world      *The SAGE Handbook of Youth Work Practice* Pam Alldred, Fin Cullen, Kathy Edwards, Dana Fusco, 2018-07-02 The SAGE Handbook of Youth Work Practice showcases the value of professional work with young people as it is practiced in diverse forms in locations around the world The editors have brought together an international team of contributors who reflect the wide range of approaches that identify as youth work and the even wider range of approaches that identify variously as community work or community development work with young people youth programmes and work with young people within care development and informal education frameworks The Handbook is structured to explore histories current practice and future directions Part One Youth Work and Approaches to Professional Work with Young People Part Two Professional Work With Young People Projects and Practices to Inspire Part

*Psychedelic Chile* Patrick Barr-Melej, 2017-03-27 Patrick Barr Melej here illuminates modern Chilean history with an unprecedented chronicle and reassessment of the sixties and seventies During a period of tremendous political and social strife that saw the election of a Marxist president followed by the terror of a military coup in 1973 a youth driven transnationally connected counterculture smashed onto the scene Contributing to a surging historiography of the era s Latin American counterculture Barr Melej draws on media and firsthand interviews in documenting the intertwining of youth and counterculture with discourses rooted in class and party politics Focusing on hippismo and an esoteric movement called Poder Joven Barr Melej challenges a number of prevailing assumptions about culture politics and the Left under Salvador Allende s Chilean Road to Socialism While countercultural attitudes toward recreational drug use gender roles and sexuality rock music and consumerism influenced many youths on the Left the preponderance of leftist leaders shared a more conservative cultural sensibility This exposed Barr Melej argues a degree of intergenerational dissonance within leftist ranks And while the allure of new and heterodox cultural values and practices among young people grew an array of constituencies from the Left to the Right berated counterculture in national media speeches schools and other settings This public discourse of contempt ultimately contributed to the fierce repression of nonconformist youth culture following the coup
